

The Passing Parade

By HAROLD S. MAY

George Hobbs, the big executive of the local humane society, gives us the difference between a recession and a depression. A recession, he points out, is when your neighbor is out of work; a depression is when you are out of work.

We never like to take back any statement we make but recently we bragged on the high plane on which the local political races were being conducted. The ink was hardly dry when we started hearing ugly rumors that were being circulated in an effort to hurt the good character of certain candidates. We know that the candidates in the campaign are not involved but it is a crime against the good name of Lauderdale County politics when some supporters allow their bias thinking to cause them to manufacture rumors out of the whole cloth in an effort to smear the good name of any opponent. That's the way Hitler operated—and Hitler didn't fail so well when the Big Lie was found to be what it was. We know that the voters nor the candidates on either side don't like it. Neither do we.

Not enough interest has been generated in regard to Amendment No. 1, which will appear on the May 6th ballot. The voters will be called on to decide whether we need two Supreme Courts in Alabama or if the present system of a Court of Appeals and a Supreme Court does not best serve our needs. The proposed amendment would constitute the present Court of Appeals as the Court of Criminal Appeals whose powers would approximate those of the Supreme Court. In reality, this would bring about an overlapping of authority. Certainly, this would cause confusion of the first water. Let's stick to what we have—the two courts have worked to the complete satisfaction of the people. Let's "No" on Amendment No. 1. Let's not tamper with these two courts.

Last week we sat in a meeting of the officers and directors of the Alabama Press Association. Representatives of newspapers from every corner of the state were present. After the work of the meeting was completed, the gubernatorial situation as it now exists was discussed freely, frankly and with no holds barred. The consensus of the discussion was that Faulkner and Wallace are conceded the No. 1 and 2 spots with no expectation that this will be changed. In some counties, Faulkner is rated the No. 1 spot whereas in others Wallace holds the position. The few exceptions to the above picture are in Marshall county, where the recent address of the result of his recent address advocating and pledging his support to a canal from that spot to tie in with the Black Warrior and Tombigbee rivers to complete a waterway from the Tennessee River to Mobile Bay. Then, in counties around Phenix City, Patterson is reported to be the leading candidate. Otherwise, according to these publishers and editors, Faulkner and Wallace are now in the coveted positions. Let's see what takes place on May 6th.

With the gradual development of the super market to today's proportions, we don't realize that there are places not too distant where the conveniences of this type of shopping are not known. Last week, for instance, an elderly farmer living in the far reaches of this county came to town for the first time in almost 25 years. Before leaving home, his wife told him to visit a certain Florence super market as she had read of the bargains being offered. He agreed, giving little thought to what might lay ahead. This man made a planned visit but came away as mad as a wet hen. Entering a general store a couple of blocks away, he complained to a friend of long standing: "I been hearing about these big super markets and their bargains and I thought I would come down and get some—but never again. Why, when I went in that store, nary a one said a word to me and I know they seen me cause them girls that's up front of that store looked right at me—and so did them fellows that were working in there. The longer I stayed the madder I got. I just had to get out of that place. As I started out the door, some man opened it for me—but I was so darn mad I didn't even see him. From now on I'll do my trading at home where they pay attention to me. I've had enough of these blame super markets." (This is a true story, so help us).

A group of youngsters, all in the seven to nine year group, planned to stage a revival of the great train robbery. They had set up a station, drawn tracks into the earth and generally had a most impressive lay-out. Finally, the zero hour had arrived. The leader of the "gang" issued an order: "Put the railroad station out of commission." Off went the "train robbers" and within a few minutes they returned with the report that the job had been accomplished. "Did you blow the station up?" asked the leader. "No, sir," replied the group leader, pointing to a paper sack one of his confederates was holding, "we took all the tickets and tore 'em up."

June Or July Seen As Earliest On Tax Debate

Congress May Delay Decision On Important Issue To Make Study

June or even July was seen this week as the earliest possible date for any tax cuts even if Congress approved such a measure to combat the recession.

This view was expressed by members of the Democratic-controlled House which originates all tax legislation. This came in the midst of conflicting rumors that the slump was leveling off or getting better and others who held that quick action by Congress is necessary to boost the sagging economy of the nation.

An economic study by the Rockefeller Brothers Fund recommended a tax cut as the quickest way to get results, it was reported. The Fund also recommended other steps as important in the present situation but Nelson A. Rockefeller, fund president, said he personally favored a tax cut. The size of the recommended cut was not disclosed but it was advocated within a month. He said he would go along with those who favored a five to seven billion dollar slash.

There appeared to be some change in the attitude of certain tax advocates in Congress however because of the fact that certain wartime excise taxes were to be dropped automatically unless renewed.

The possibility of a general tax cut was said to be "very much in the picture" since even if the economic slump proves to have appreciably slowed, such a cut could be used to bolster recovery and get business off "dead center."

One of the things brought out by the Rockefeller study was that a tax cut would have immediate benefits in reducing unemployment. For a long-range tax cut the panel advocated a revision of the income tax structure with lower and more equitable rates. It also recommended a change whereby individuals with sharp variations in income could average their taxes over a period of years.

Julius H. Spry Is Accident Victim

Julius H. Spry, 38, of Florence, who is connected with Spry Funeral Home and the Tennessee Valley Oil Co., suffered a fractured left leg and abrasions and lacerations of the right leg, his body and head as the result of an auto-truck collision at the junction of Highways 43 and 72, Tuesday afternoon.

Mr. Spry was returning from having taken his brother, James Spry, home from Coffee Memorial hospital when the accident occurred. The truck was driven by J. O. Powers, of Owensboro, Ky., and it is reported by the State Highway Patrol that the cause of the accident was the failure of the truck's brakes to hold. Powers was arrested on a traffic violation charge.

Word from the hospital late Wednesday stated that Mr. Spry is still suffering from shock but is resting comfortably.

Faulkner Rally At Central's Stadium Attracts Hundreds

Enthusiastic Greeting Given Candidate At All County Appearances

Jimmy Faulkner, leading candidate for Governor of Alabama, brought his campaign to Lauderdale County.

JIMMY FAULKNER

Opening his two-day stay in Lauderdale with an appearance at the Joe Wilson Stadium, Central High school, Tuesday night at 7:30 o'clock, Candidate Faulkner was welcomed by a crowd of well over 1,000 persons who crowded about the speaker's stand and hundreds of others who heard his remarks and the songs and entertainment of the Statesmen Quartette from the more than 300 cars parked in the stadium grounds.

Faulkner, the All-Alabama candidate, basing his talks on his slogan, "More Pocket Dollars for All Alabamians," drove home his remarks with firm, sincere words that brought prolonged applause from the crowds that attended the Central Heights rally and meeting Wednesday morning at Rogersville at 9 o'clock; Killen at 10 o'clock and Waterloo at 11:45 o'clock.

Pledging close cooperation with Senators John Sparkman and Lister Hill in all good things for Alabama and bringing applause when he touched on some of his opponents, Faulkner outlined his program and promises which, in part, includes: 1—A multi-million dollar school building to provide jobs for teachers as well as carpenters, brick layers, plumbers and other building trades people, and to enable Alabama to maintain segregated schools.

2—Immediate long-term credit for farmers so they can expand their present facilities or diversify their farm program, and to provide more and better markets for Alabama farm products.

3—Old age benefits of \$50, a month—every month.

4—Location of new industries.

Fluoridation To Be Voted On May 6

Delegations Present Arguments Before Board Of City Commissioners

The question as to whether Florence's city water shall be fluoridated will be decided by the voters on May 6 when this question will appear on a ballot to be voted upon at the same time that the Democratic Primary is held.

The simple question to be asked on the ballot is: "Shall the City of Florence authorize the water department to introduce fluoride into the water supply? Yes () No ()".

The matter of the vote was decided at the meeting of the City Commission which was in the form of a public hearing, Tuesday night at the municipal building.

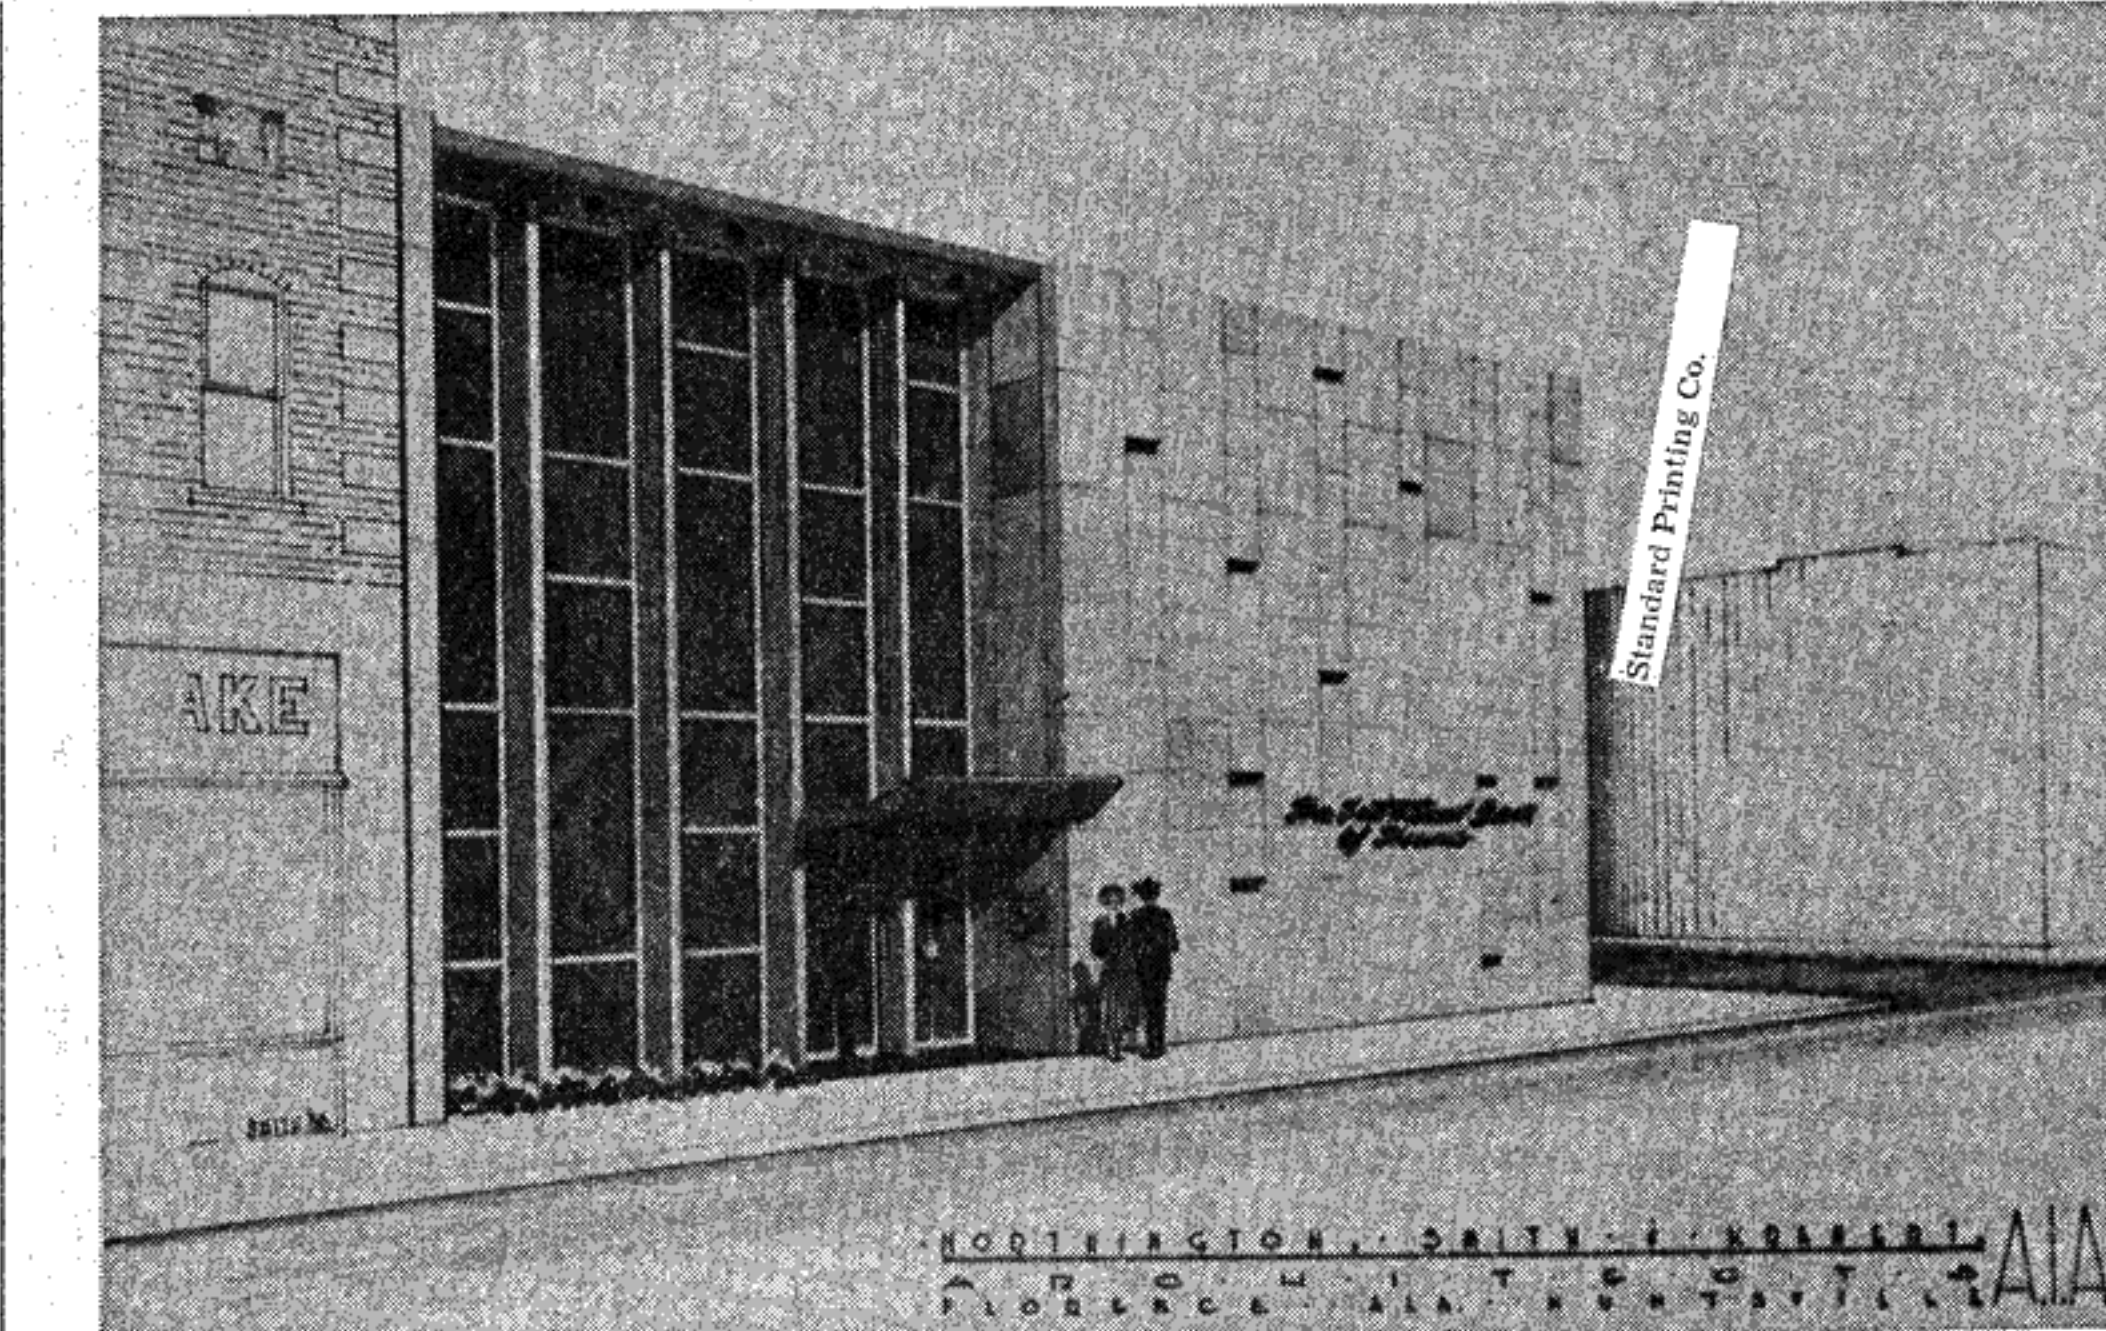

The two groups, those opposed to fluoridation headed by Tom McGough, and those for, headed by Marshall Smith, discussed the various phases of this controversy before the Commission presenting considerable material to substantiate their particular views. Appearing in favor of the program was more than 50 persons while a dozen appeared in opposition to the proposed plan.

Local Employment Will Get Boost From Project

Reynolds Metals Company announced this week that it had awarded a contract to Eastham-Orr, Inc., for the fabrication and assembly in Sheffield of an aluminum bus bar system for the new Reynolds reduction plant at Massena, N. Y. It is estimated that the new undertaking will result in the employment of from 150 to 450 Shoals area workers.

The work will get under way at once, it was announced by Sam Eastham, president of the Eastham-Orr company, who said local labor would be used and that some 10 months would be required to complete the project.

The bus bar system will supply electricity for some 500 reduction cells to be incorporated in the Massena plant which is scheduled to begin production during the summer of 1959. The Eastham-Orr company has its headquarters

Hill Critical Of GOP Failure To Meet Recession

Alabama Senator Says Republicans Responsible For Economic Situation

Senator Lister Hill today accused the Eisenhower Republican Administration of inaction and indecision in the face of the deepening economic recession.

Hill was especially critical of the Rivers and Harbors bill which he declared was "a constructive anti-recession measure and important to the continuation of an expanding economy and the future economic growth of our country."

Hill called on Congress to override the President's veto and asserted, "Unless the veto is overridden the President's action will kill the long-sought Tombigbee River act improvement program and the important flood control work on the Alabama River at Montgomery. The President's veto would deny Alabama \$19,711,000 for essential flood control work on the Tombigbee River and \$1,300,000 for work on the Alabama River at Montgomery."

"The Republican Administration," Hill said, "must face up to the grim realities of the present economic situation if we are to avoid further hardships for the American people. It is futile for the Democratic majority in Congress to enact constructive and necessary anti-recession measures, such as the Rivers and Harbors bill and the Farm bill, only to have them vetoed and returned to Congress with such blunders as the prediction that prosperity is just around the corner."

Hill said that the President's advice to the American people to spend more money is "small consolation to the 5.2 million people who are unemployed. These people are asking whence cometh the money that they are told they must spend to get us out of the recession."

Recent houseguests of Mrs. Lena Hill were Mr. and Mrs. Bert Daigle and Mr. and Mrs. Blanchard Lawson of New Orleans.

C. L. Haley, Jr., chairman of the board of the First National Bank, Florence, announced this week that a contract estimated at approximately \$300,000 had been awarded to J. M. Massey, Jr., general contractor of Florence, for the enlargement and modernization of the banks facilities at the corner of Court and Mobile streets in downtown Florence. The project is expected to take seven to eight months for completion. Northington, Smith and Kranert, of Florence and H. Lloyd Hill, Atlanta, Ga., special bank architects, are architects for the project.

The new expansion project is the third major enlargement made recently in the First National Bank's facilities, the most recent being the completion of a modern drive-in depository at the corner of Tennessee and Poplar streets. Prior to that the bank opened a completely modern branch bank in North Florence for the convenience of its patrons.

When the new section is completed, Mr. Haley said all of the banks activities will be transferred into that section so that work on the present structure may be carried out with a minimum of inconvenience to patrons.

Entirely new heating and air-conditioning units will be installed to take care of the increase in space. Mr. Haley said, pointing out that the new building was being designed with customer convenience and comfort in mind as well as permitting the institution's

'Robbing Peter To Pay Paul'

Is the dilemma of the cotton industry the result of a "Rob Peter to Pay Paul" situation? We cannot as a newspaper, profess a full knowledge of the conditions but we can surmise there is something very seriously wrong when a great industry finds itself hamstrung when it should be running full speed ahead.

This government's subsidizing of cotton so that Japan can buy it cheap enough for its finished goods to undersell American made goods is a fine thing for the Japanese textile manufacturers with their notoriously underpaid workers, but it is bad for this nation's economy. Nobody needs arithmetic to see that this sort of government bungling is bad for everybody.

The government's economists maintain that we must not only keep up our good relations with Japan but must help them get back on their feet. They seem to be willing to do this at any cost. In addition to cotton goods all sorts of items are found on sale in America that are "Made in Japan." These include cameras, field glasses, hardware, light bulbs, ceramics, dinnerware, jewelry, and a host of things in almost every category.

Competition of this sort, our so-called experts should remember, is not the honest competition free enterprise made possible, but is based on two completely different economies, ours and Japan's... one with the highest standard of living in the world, the other with the lowest. The weekly wage of Japanese workers is much less than the daily wage of many Americans.

Among other things Americans should remember that Japan has come far in the post war years economically. Already she is turning westward and doing more and more business with Red China, now a great potential and fast-growing market for the world's goods. Japan has indicated that she does not approve of our being in Okinawa which can also mean she is tired of our Pacific intentions.

If Japan should join some sort of Oriental entente what could we do about it? We can well bet "our bottom dollar" that the little people of the Islands would hardly make the same "boo boo" they made in World War Two.

If this is scary talk it might also conceivably be common sense to think about such things and like good Scouts... "be prepared."

Don't Poison The Wildlife

The State Department of Conservation, one of the most efficient of the state's departments and certainly one of the most valuable, is expressing concern over the wholesale killing of game and wildlife by the indiscriminate use of insecticides. This concern certainly appears to be well justified.

Members of the department's personnel have been gathering evidence from various parts of the state and are particularly concerned over the use of poisons in the control of the fire ant. They feel that while this pest must certainly be controlled they have asked that further studies be made of the methods used in order that wildlife may be better protected. The powerful insecticides used in fighting this and other pests are leaving a sad trail of dead and dying birds, rabbits and other wildlife and also of domestic animals that catch and eat the poisoned birds and small animals.

The fire ant, according to experts can be controlled and its eradication is not held impossible. However, control experts say there are right and wrong ways to fight this pest and that the wrong ways, however effective they may appear, often cause the ants to scatter and thus start other colonies. The big thing, it seems, is to keep the ants in one place if possible until the parent colony is wiped out. Fire, kerosene and other things used in eradicating ordinary ants only cause the fire ants to burrow deeper and channel out into all directions.

So, if fire ants appear, don't fight them without consulting your county agent as to the right method to use. In this way you may prevent a further outbreak and at the same time protect our game and wildlife.

Faulkner To Stage Big Motor Caravan

Fresh Waters of North Alabama To Be Linked With Salt Water of South

A gigantic motor caravan, highlighted by five big gospel singing concerts, will take gubernatorial candidate Jimmy Faulkner from North Alabama, where he was born, to South Alabama, where he now lives, and back again in the closing week of the campaign.

Plans for the state-wide visit were announced by Jim Smith, of Tusculum, Faulkner's state campaign manager.

Climax of the big swing will be the Jimmy Faulkner All-Night Gospel Singing at the Municipal Auditorium in Birmingham at 7:30 held at Florence Tuesday, April 22; Gadsden Wednesday, April 30; Mobile, Thursday, May 1; and Montgomery, Friday, May 2.

Quite appropriately, the Faulkner Victory Caravan will start not far from where Faulkner was born, on what he calls "the fresh waters of North Alabama." It will wing its way down through the state to South Alabama, where Faulkner now publishes a weekly newspaper at Bay Minette. Faulkner terms this "the salt waters of South Alabama."

The world-famous Blackwood Brothers and Statesmen Quartets will be among the outstanding gospel singing groups to appear at the night gospel sings which will highlight the Faulkner activity leading up to election day Tuesday.

5—Creation of Tourist and Convention Bureau to at least double the \$100-million-a-year tourist industry in state and to keep more conventions in Alabama.

6—To help Alabama manufacturers sell their products thereby bringing mill employment back to full-time basis.

7—To match all federal funds for roads building and to cooperate with city and county officials in their street and farm-to-market road building program, bringing jobs to thousands of construction workers in the state.

Faulkner is called the All-Alabama candidate because he was born on the fresh waters of North Alabama and now lives on the salt waters of South Alabama. He wants to spend the next four years in Montgomery, in Central Alabama.

"I understand the problems of all the people of Alabama and I promise you that if you elect me your governor, I will spend the next four years working day and night to prove to you I want to help you," Faulkner is telling the people as he makes approximately 40 speeches a week. "I humbly appreciate your support and I am extremely confident of victory on May 6," he declares.

Dr. Lund Invents Mattress Pan-Aid Comfort Device

Dr. Douglass W. Lund, who has offices at 436 N. Court St., Florence, has invented a new comfort-aid bedpan that is destined to prove a boon to bed-ridden persons, according to comments by physicians and hospital officials.

Displayed at the recent meeting of the Alabama State Medical Society in Birmingham, the plastic bedpan designed by Dr. Lund fits into a specially equipped mattress and so brings comfort to the patient in contrast to the bedpan that has been in use for many years.

Dr. Lund said that his invention, called the mattress pan-aid, was made to offset the present discomforts of existing designs. He said that it will ease the nurses' problems and stop contamination of bedding and mattress. Made of linear polyethylene or nylon, it is rigid, collapsible and economical.

The pan will fit into zippered pockets added by mattress manufacturers providing a normal mattress when the pan-aid is not in use. The ease of use and comfort of use as well as the sanitary features have caused the new invention to be much discussed at the convention where it was given widespread approval by all who viewed it.

Dr. Lund recently returned to Florence to open his offices after several years spent in California.

He described the physical set-up of the program as well as the dedicated personnel operating the vast system.

The speaker gave a graphic word picture of his visits to Frankfurt, Berlin, Paris and other points of interest on the continent and especially discussed Berlin, "The Island in the Red Sea."

A visit to Dakar, the infamous Hitler concentration camp, was also vividly pictured.

Reynolds Rextex Is New Product

Textured Sheet To Find Many Uses; Ads On Foil Latest Innovation

A new mill product, textured finish aluminum sheet, was announced today by Reynolds Metals Company.

Availability of the sheet, expected to be of great interest to designers, was disclosed at the Design Engineering Show in charge, where samples were on display.

The product has a surface similar to sanded sheet, according to R. P. Kytie, Jr., director of industrial products for Reynolds. It gives a uniform mat surface which offers an interesting medium for designers. In addition, scratches and other minor surface abrasions are less noticeable on the textured surface.

Textured sheet is expected to find many important applications in automobile trim, appliances, furniture, stove hoods, decorative materials and novelties, Mr. Kytie said.

The sheet is available in all standard sizes. The extra cost for providing the textured surface is very small, according to Mr. Kytie.

Reynolds identifies the product as Rextex sheet. Only one type of Rextex has been produced to date, but the company plans to add two other forms of textured sheet in the near future.

Reynolds Pioneered Foil

One of the latest and certainly one of the most unique uses to which Reynolds Aluminum foil has been put is in running printed foil through the presses of a newspaper plant, printing on the re-printing of aluminum foil sponsoring the first such ads in magazines.

From a standpoint of real usefulness, Reynolds foil has perhaps proved the greatest boon to food packers since the invention of waxed paper. Food not only keeps better and fresher but is far more attractive. Whether fresh or frozen foods, aluminum foil has a new usefulness since it retains either heat or cold for longer periods than ordinary wrappings.

In non-food products aluminum foil is equally useful and attractive besides keeping out light rays harmful to certain products such as film. For labels, it has no equal.

Cinema Theatre To Open Doors Apr. 30

First Showing Will Be 'The Long, Hot Summer' By William Faulkner

The Cinema Theatre in Florence will open on Wednesday of next week.

The Cinema was formerly the Princess, but it has been almost completely transformed. Following a fire last summer, the management of Rosenbaum Theatres took the opportunity to alter the interior arrangements in order to create a modern and virtually new showplace.

There are new slide-back seats, a completely new decorating job, new carpets, a new lobby, a new concession stand, and a new marquee with a changeable letter sign.

The restrooms have been enlarged and improved. There is a new "cry" room. The arrangement of seats in the balcony has been changed to allow plenty of comfortable knee room. The air conditioning distribution system has been improved. There are new lighting fixtures, and a new acoustical plaster treatment of the walls.

The opening attraction will be "The Long, Hot Summer," which just completed a two weeks run at the Alabama Theatre in Birmingham. Based on a William Faulkner story set in Mississippi, this important film, in CinemaScope and color, stars Joanne Woodward, recently winner of the Academy Award as the best actress of the year, along with Paul Newman, Anthony Franciosa, Orson Welles, Lee Remick and Angela Lansbury.

The Cinema will open at 12:45 p. m. on Wednesday of next week, with the show beginning at one o'clock.

The architects were Northington, Smith and Kranert. The general contractor was James M. Massey, Jr.

Lexington And Waterloo Chapters Represented At Birmingham Sale

Calves from Lexington and Waterloo FFA chapters shown Wednesday at Lauderdale County's annual Fat Calf Show will be exhibited and sold by their owners today and tomorrow at the Birmingham Fat Stock Show.

Almost 400 beef calves will be exhibited and sold by 4-H Club and FFA owners at the Birmingham Fat Stock Show Thursday and Friday.

Many of the youngsters are old hands in the show ring, while others will be competing in their first stock exhibit. But there's no doubt that they'll all perform well, reports Bob Farquhar, API Extension livestockman. "These boys and girls," he adds, "have been training and grooming their animals for many weeks—to say nothing of the months of careful feeding required to bring the calves to their present top condition."

All calves exhibited in the Birmingham show will grade U. S. Prime, Choice, or Good. Animals grading lower are not eligible to compete, according to Farquhar. And after the show, the calves are to be sold to packer buyers, local grocers, and others interested in obtaining top-quality beef on the hoof. Consequently, a large percentage of the beef will find its way into the meat counters of many retail stores in the Birmingham area.

Boys and girls will come from 20 Alabama counties to enter the Birmingham show, said Farquhar. The counties to be represented are Lauderdale, Limestone, Jackson, Franklin, Lawrence, Morgan, Marion, Cullman, Blount, Lamar, Fayette, Walker, Jefferson, Shelby, Tuscaloosa, Pickens, Sumter, Randolph, Chambers, and Chilton.

More than 1,600 foresters serve as inspectors for the voluntary Tree Farm program which is helping small landowners to grow timber as a crop.

KEEP UP THE GOOD WORK!

AGAIN AND AGAIN, industrial newcomers to the Southland tell us how pleased they are with their first manufacturing plant in the South. There are many reasons for this. But right up on top of the list is the fact that they've found the men and women in industry here to be willing, dependable workers—easily trained and eager to give a full day's work for a fair day's pay.

In times of lessened business activity everywhere, this willingness to work is more important than ever before, both for Southland industry and for

its workers. It helps management keep production cost per unit down, so that the finished product can be priced to sell in today's highly competitive markets. And this, in turn, makes jobs for workers.

A good supply of good workers has always been one of the Southland's greatest drawing cards. It brings new, job-providing manufacturing plants to the South—and keeps them busy after they get here. Now in particular it benefits everyone in the Southland to "keep up the good work"—and keep it that way!

Elizabeth Artis Weds Thomas Wayne Cotton

Greenery-entwined triple arches and white flowers formed the background before which Elizabeth Ann Artis and Thomas Wayne Cotton said their marriage vows in Oakland Methodist Church on Saturday, April nineteenth. Parents of the bride are Mr. and Mrs. William Howard Artis, Waterloo Road and the bridegroom's parents are Mr. and Mrs. Curtis C. Cotton of Brilliant.

Wedding tapers lighted the scene as a prelude of nuptial music was presented by Mrs. James Johnson, organist, and Mrs. Gene Mitchell, vocalist. The Reverend Waymon Crumpton of Birmingham, uncle of the bridegroom, officiated, assisted by the Reverend Chester Dobbs, minister of the church, at half past four o'clock in the afternoon.

Given in marriage by her father, the bride's gown of ivory satin was the workmanship of her mother and had been worn by her sister, Barbara, on the occasion of her marriage to Carl Boley. A lace yoke and small self-covered buttons distinguish the fitted bodice while the very full skirt is of long tulle and extends into a long train.

Her fingertip veil of double illusion was caught to a jeweled tiara and Stephanotis and lilies of the valley encircled the white orchid which she carried with her prayer book.

Honor attendants were her sisters, Mrs. Boley and Paula Artis, and maids were the bridegroom's sisters, Mrs. Herschel Norris of Winfield, Mrs. John Devon Landers of Auburn, Miss Diane Braden of Huntsville, cousin of the bride. Their hoop-skirted dresses of moonbeam blue were fashioned of crystalet and their hairdresses were veiled bandeaus of matching material. They carried bouquets of pink daisies.

Flower girl Joan McFall wore white, identically designed, and scattered rose petals from a lace white basket.

Best man for Mr. Cotton was his cousin, Billy Joe Godsey of Birmingham, and ushers were William Godsey, Carl Boley, William Dickinson of Brilliant, and John Crump of Jasper.

A reception at Rogers Hall followed the ceremony where magnolia foliage and white flowers

were used to decorate the lower floor. The all-white bride's table was covered with a lace cloth and the tiered cake was encircled with small blossoms.

Assisting were Mrs. David McFall, Mrs. James Rice, Mrs. Floyd Parker, Miss Barbara Owens of Hattoy, Miss Rose Vaughn, Miss Dot Jones, Miss Barbara Smith, Miss Yvonne Keel, Miss Velda Huggins, Miss Carolyn Carter, Mrs. Walter Newbury, Mrs. W. H. Buchanan and Mrs. Charles Miller.

When the couple left for their honeymoon trip the bride wore a black and white sheath dress of cotton with white hat and black and white accessories. At her shoulder she pinned the orchid from her bouquet.

They have returned and are at home at 546 Riverview Drive.

Following the rehearsal of wedding plans on Friday evening, Mr. and Mrs. Curtis Cotton honored their son and his fiancée, entertaining in the church parlor.

White net over pink covered their table and pink blossoms formed the centerpiece where Mrs. Floyd Parker and Mrs. James Rice presided.

Members of the bridal party, family members and out-of-town guests were included in their invitations.

Carolyn Bradford Weds To Jimmy Dean Howard

The bridal gown worn by Carolyn Jane Bradford when she exchanged marriage vows with Jimmy Dean Howard in First Baptist Church on Sunday afternoon, April twentieth, was of white silk bombazine featuring a fitted bodice with off-the-shoulder V neckline finished by a wide band of scalloped lace. The sleeves were short and puffed, with the very full skirt sweeping into a chapel length train.

Her fingertip veil of illusion fell from a pearl studded half-crown fashioned of lace and her French bouquet was of white roses.

Given in marriage by her father, Eulas Severe Bradford, before an arched decoration of Southern simlax and Majestic daisies, her honor attendants were Miss Joanne Hammond and Mrs. Lowell Vann of Cullman. Bridesmaids were Miss Azalia Walker, Mrs. Clifford Farmer, Mrs. Robert Cameron and Miss Jordan Hairston. Their full-

skirted yellow lace frocks were complemented by wide satin cummerbunds which formed bows at the back and their headresses consisted of matching sun and tulle; their bouquets of marguerites with tulle and satin streamers.

Flower girl Beverly Brown wore yellow organdie with a bandeau of yellow daisies as she scattered petals from an arm-basket.

Dr. Hudson Doyle, pastor of the church, read the vows at half past three o'clock following a prelude of wedding music presented by Mrs. L. S. Doster, Miss Lynn Hairston and Charles Dorris.

The son of Mr. and Mrs. William Buford Howard of Rogersville, the bridegroom was attended by Lanier Calvert as best man and ushers were Forman D. Solomon of Concord, North Carolina, Robert Davis of Fort Walton, Florida, Lowell Vann of Cullman, and Roy J. Bradford of Tusculum.

White flowers mingled with greenery to decorate the church parlor for the reception following the ceremony when the bride's parents were hosts. The wedding colors of yellow and white fashioned the flowering centerpiece which with the tiered cake and candles in branched silver stands, appointed the bride's table.

Assisting were Mrs. J. T. Staley, Mrs. Hudson Baggett, Mrs. Cecil Harris, Mrs. William Mardis, Mrs. C. E. Jessup, Mrs. Roy Bradford, Mrs. Wayne Tease, Mrs. Chester Boston, Mrs. Rosella Baker, Mrs. Horace C. Foster, Mrs. John Wilks and Miss Kay Owens.

THE SPILLWAY

OUR MEM'RY IS a fickle one
It takes a silly whim
We either are forgetting things
Or else remembering them

FIRST ONE AND then the other... and often at the wrong times... Frinstance... there was the Easter Sunday celebration enjoyed by the many friends of Wilma and Harold Koonce... Festivities took place at their Central Heights home and the occasion was their twenty-third wedding anniversary... The Madam here and now extends belated congratulations and a sound dressing-down for having been left off the invited list...

WE'RE TOLD... TOO... that Wilma continued the celebrating by taking off for Auburn where she visited (daughter) Martha Sue (Koonce) and Johnny Dee Landers... who were free to enjoy a fun-filled weekend at "Village Fair" while she enjoyed even more "grandbaby Lisa" (Lisa Dianne Landers)... And we can't leave off telling you that Martha Sue and Johnny Dee are equally as popular at Auburn (where he is an Assistant Professor of Freshman Chemistry) as they were at Florence State (where they walked away with armfuls of honors)...

TAKING ANOTHER BACKWARD look... we think you'll like description of the loveliest and most original luncheon table we've seen in many a moon... 'Twas a bit of "Lois Morris Magic" displayed when she was hostess at the Town Club, to a bon voyage luncheon for Ann King... Place cards were small maps... the clever artistry of Lois' charming and talented daughter... Nonnie Morris Hailom... and the centerpiece... surrounded by mounds of pink hyacinths and blue and white violets... was a globe of the very same world which the honored guest will soon trip around... 'Twas a delightful occasion which we're pleased to report...

SMILES AND MORE SMILES we noted... as Bobby Burnett... accompanied by his lovely (wife) Helen... greeted old friends and made new acquaintances while visiting (parents) Elizabeth and Staats at their home on Paxton Avenue... The talented Helen... who is choir director in her home church in Rockwood... Tennessee... hesitating a moment here... another there... to hear an organ's tone or to compliment a chorister's lovely notes... (we think it was Bob Sandlin of whom we heard her speak)... They're a couple who'll leave you feelin' warm from within...

WERE WE EVER proud of Betty Severin who spoke at the Sisterhood of B'nai Israel's tea last week... with a sweetness that matched her smiles and a wisdom far beyond her years... And proud we were... too... of Neil Slatcher... our neighbor who drives over from Decatur quite often... and whose exquisite diction and choice of words combine to give to prose the loveliness of poetry...

Leo Views the College Campus By DOTTIE McRAE

With the exception of Monday, the entire week last week was spent in elections.

Tuesday, Betty Gentry, Moulton, was elected by the student body as their May Queen. Wednesday, Becky Blair, Florence, was chosen to be Maid of Honor.

Thursday, the remainder of the court was elected; representing the senior class are Sarah Kitchens, Tanner; and Jane Mills, Vernon. From the Junior class come Peggy Norton, Town Creek; and Sherry Phillips, Rogersville; and Janice Johnston, Flint, Michigan, represent the sophomore and freshman classes.

Thursday morning at 10:00, when practically no one has classes (ROTC sophomore and freshmen classes did have to meet this week—to be in shape for federal inspection coming up soon), cheerleader try-outs were held.

In the try-outs Thursday and in the election Friday were Lula Dobbins, Stevenson; Ann Elmore, Athens; Jean Gardner, Sheffield; Betty McElyon, Athens; Ida Meeker, Stevenson; Andy Moore, Birmingham; Bill Nelms, Tarrant; Bob Norton, Athens; William Pace, Russellville; Joanne Poteete, Detroit, Michigan; Julia Terry, Hillsboro; Jane Tune, Winfield.

Friday, in addition to six cheerleaders, Jane Tune, Betty McElyon, Lula Dobbins, Andy Moore, Bill Nelms, Jean Gardner; one of gubernatorial candidates (the votes hadn't been counted Monday) was elected "governor of Alabama" in a straw vote.

Contending with the elections for the number one spot in the week's news was the appearance of the 1958 "Diorama." For over a week, Maurice Reece, editor, had been predicting and anxiously awaiting its arrival. Friday, the books came and various members of the staff distributed them from the college bookstore for the rest of the afternoon.

This year's annual is really special—the frontpiece is a picture of the amphitheater in full color—it's beautiful. There are several other innovations in the '58 "Diorama," and the staff is justified in being proud of it.

Monday, the Chanticleers brought to FSC by the Convocations Committee, appeared at Coffee Auditorium. The program given by the quartet included in its range everything from operatic selections to folk songs. One of the best received pieces was their shortened and adapted version of Gilbert's "H.M.S. Pinafore."

Climaxing a great deal of hard work, "Candida," came to the stage

From The Simple Side By THE FARMER'S WIFE

I searched for a subject, and found none there—or so thought the Farmer's Wife this week as we stood at our window viewing a neighbors house-quiet and empty now, where once I heard shouts of many voices and children at play. Within its walls many lives had made an entrance into the world, and within its walls many lives had been lived.

Here, problems had been met and solved. Sorrows and happiness had been shared alike amid it all two young hearts grew old together. But today it was strangely quiet, this house of my neighbors, it had housed a generation, and did it's job well.

I looked at our young orchard again—and I knew that today I did have a subject. There the young trees stood, some of them nearly waist high yet—but tomorrow full grown. Around our house they would grow, and bloom and bring forth their fruit and I hoped would do their job well too. I could compare them to life in a way—for it was lived in the same manner.

I looked again at my neighbors house, and thought of the phrase I had read some where—that with our life we leave our gift. Would that I knew that my own house could leave so much to the world as had that of my neighbor's.

this week. A number of people said, last fall, after the production of "Death of a Salesman," that it was the best of the Rehearsal Clubs productions. I enjoyed this one even more. The next presentation, "Ring Around the Moon," will be staged May 12 and 13.

Now for sports, trying to keep up with both baseball and tennis is getting very confusing. The baseball team have more wins than losses at the moment, but the tennis team started the season with two losses.

Tuition Upped At University

Increase in fees at the University of Alabama to become effective next September, with the beginning of the 1958-59 academic year, was authorized last week by the Board of Trustees.

The tuition fee will be raised \$10 a semester, and the student activity fee \$5 a semester. This

will bring to \$210 per academic year the amount which an in-state student will pay for tuition and fees. An out-of-state student will pay a total of \$560 per academic year for tuition and activities under the new scale.

Commenting on the Board action, President Frank Rose said the tuition hike was earmarked specifically by the Trustees for increasing faculty and staff salaries.

LET THE HERALD PRINT IT!

Let's Talk It Over

By SARA SAZE

Dear Sara Saze,

How can you go about helping a grown man who is still a baby, a CRY baby at that? I've known this fellow all my life and have seen him shed tears on several occasions when things were rough. Right now he is facing a sad crisis and calls me to come to his office occasionally. And when I go in he buries his face in a handkerchief. I feel like an idiot. What can one man say to another in a case like this? I've blundered along with him and now I'm at my row's end.

Blundering Bill

Dear Bill,

This man evidently feels much closer to you than you to him. As I read through your letter (you'll notice that I left some passages out of the printed text) I couldn't shake off the thought that your friend is paying you a big compliment. When we face the rough spots we invariably want to be with those whom we love and most of us, when we know our friends are troubled, want to be with them.

Frankly, I like to see people break through that wall of outer composure and when they feel the need, give vent to the pressures which burden from within. There are those who feel as cramped and uncomfortable in the presence of a stoic as you feel with this man who lets his heart show through.

As for how to treat him, just think of what would help you if you were in his shoes. Do for him what you'd need done for you. He's human and I hope you'll be the same.

Dear Sara Saze,

What is the rule about taking your fiancé to visit your family? My home is in Texas and my mother writes like it is going to be embarrassing to us all if my girl does not come out to get acquainted before our wedding in June. It is not convenient for her since she is in school and will graduate just about a month before we get married. And she will be very busy.

But she will make the effort if there is any rule about it. Please answer soon.

Engaged.

Dear Engaged,

The only rule I know anything about is an unwritten one. It is plain common sense that your parents would like to know your bride-to-be, and she them. I think I should speak of it as a "nicety" rather than a "rule." A custom observed whenever at all possible.

Why not select some half-way spot where you could all meet for a weekend visit together? That would not entail all the planning and the time consuming details of a trip to your home, and would probably be a balm of a sort to your mother's meticulous nature.

Patterson Will Speak Monday

Attorney General John Patterson, candidate for governor, will speak at the Lauderdale County Courthouse on Monday night at 7:30 o'clock in the interest of his candidacy, his headquarters announced Wednesday.

Mr. Patterson's motorcade will visit Moulton and a number of other points in North Alabama as well as Lauderdale County prior to his Florence speaking engagement, it was stated.

Travelling with the motorcade are the featured entertainers, Reed Gosden and his band.

J. EARL ROMINE

Asks For Your Vote and Support

OF HIS
CANDIDACY FOR
SHERIFF

IN THE MAY 6 DEMOCRATIC PRIMARY

Having been a peace officer in Florence and Lauderdale county for the past 18 years, three and a half years as Sheriff, I feel that I know the desire of the people for fair and impartial law enforcement. To this principle I have always dedicated myself and will continue to do so, if honored with election.

My record in office will show that I fully realize that each and every section of our county and the City of Florence is entitled to receive the careful attention of the Sheriff and his deputies and will, in the future if elected, as I have in the past place my deputies in easy reach of every citizen so that proper protection at all times might be given.

Our county is one of the largest in the state and it has been impossible for me to contact every voter, but I ask that those of you I have not seen to take this as a personal request for your vote and support.

Sincerely yours,

J. EARL ROMINE

ELECT

H. Lelon Thornton

Present County Commissioner from District No. 1

IS A MAN AT WORK ON YOUR FUTURE — TODAY

- Commissioner Thornton is taking an important role in the development of the Lauderdale State Docks program on the Tennessee River which will, when completed, attract NEW INDUSTRIES for our area and create NEW JOBS for our people. Commissioner Thornton strongly supported and took an active part in Lauderdale County recently acquiring a valuable tract of land adjacent to the present state dock site in Florence for the necessary growth of the Lauderdale Docks program.
- Commissioner Thornton has earnestly worked for the badly needed expansion of our city-county hospital WITHOUT NEW TAXES. His efforts along with others on this project are now paying the people of Lauderdale County real dividends. The new hospital construction, WITHOUT NEW TAXES, will soon start.
- Commissioner Thornton, during his eight years of public service on our county court, has helped the people of Lauderdale County receive full value for the Lauderdale County tax dollar. We are now in a good financial position. The good credit of our county today is at work for our children tomorrow.
- Commissioner Thornton, as an experienced and able road building commissioner prior to 1953, has always cooperated with the State Highway Department in the building and maintaining of the roads and bridges in Lauderdale County to the best of his ability and to the extent allowed by law. He has consistently worked to obtain more and more miles of paved roads in Lauderdale County for his people. The coming paving season will once again attest to his successful efforts and planning for his district and for his county.
- Commissioner Thornton is vitally concerned with the plight of the farmers of Lauderdale County, particularly those in his district, brought about by the Benson-Eisenhower national farm program. He is currently engaged in seeking to attract and locate small industries in District No. 1 in the Rogersville, Lexington and Anderson area in order that badly needed jobs and supplemental income might become available to farm families. He will continue his work with Chambers of Commerce and other interested groups in this regard.

Commissioner H. Lelon Thornton has a good, progressive record as your County Commissioner which should warrant your vote and support on May 6th.

Re-Elect H. Lelon Thornton AS COUNTY COMMISSIONER OF LAUDERDALE COUNTY DISTRICT NO. 1

(Subject to Action of Democratic Primary, May 6, 1958)

WATERWAYS AND DOCKS: Our inland docks and waterways and our State Docks at Mobile are Alabama's greatest natural assets in attracting new industries and expanding those industries we now have. Blackleg May Be Prevented By Vaccinating

A spring-time warning for cattle owners to be alert against outbreaks of blackleg at this season of the year was issued here today by the American Foundation for Animal Health.

"May farmers think blackleg strikes only in the fall, but it often causes heavy losses in the spring, too, and can also occur at other times of the year," the

Foundation said. Foundation officials said having young cattle vaccinated against blackleg is the best way to insure against blackleg losses. Vaccination should be done before cattle are turned out to pasture this spring. Normally, such vaccination should be done when calves are more than three months of age. Blackleg kills quickly, often within 12 to 48 hours. It may be mistaken for malignant edema, anthrax, hemorrhagic septicemia, sweet clover poisoning and other abnormal conditions. Therefore, the Foundation suggests a veterinary diagnosis as an insurance measure, whenever a blackleg

outbreak is suspected. First symptoms of the disease include acute lameness, depression and fever. Swellings, which first are hot and painful, appear in the muscles of the animal's hip, shoulder, chest, back or neck. The disease gets its name from the blackened appearance of affected muscular tissue.

Church

There was a good attendance at both the morning and evening services at the Bethel church Sunday morning. One hundred twenty eight attended Sunday school, with others arriving for the eleven o'clock worship service. We were

happy to have visitors in our midst, as always. The Rev. McDougal filled his pulpit at both the services.

Saturday night is the monthly Brotherhood and WMU organization's regular meeting night.

The ladies of the WMU organization will meet this week in the home of Mrs. Roxie Middlebrooks instead of last week as was planned.

The meeting last week was postponed due to the death of Mrs. Betty McConnell whose funeral services were conducted in the Bethel church by the Rev. Shook.

Her burial was in the Mitchell cemetery. She was 84 years old at the time of her death.

The Bethel church is planning a Mothers' Day program to be presented on that day, under the direction of Mrs. Anna Doss.

Mr. and Mrs. Glendal Thacker of Ark., are spending a two weeks vacation from the United States Army with their parents here.

Dinner guests in the W. R. Doss home Sunday were Mr. and Mrs. Ben Burgess, and Mr. and Mrs. Rural Yarbrough and Kathie. Miss Bessie Smith of Athens visited in the Doss home also in the afternoon.

Mrs. Sam Gullet celebrated her 65 birthday in her home Sunday. All of her children and their families were present with her on this day. Others present to help her enjoy her birthday dinner were Mr. and Mrs. Roy Alred and Mrs. Ethel Cook of Athens and Mrs. Lucille Williams of Nashville.

T. C. Appleton also celebrated a birthday on this past Sunday, and with him to enjoy the day and his dinner were most of the members of his family.

W. C. Middlebrooks, son of Mrs. Roxie Middlebrooks has been stricken with arthritis typical to that of his mother who has been ill for a good while. He is confined to a Chicago hospital, and would enjoy getting cards and letters from his friends and neighbors here and in other communities too.

His address is W. C. Middlebrooks; Room 1576 Wesley Memorial Hospital, 250 E. Superior Ave., Chicago 10, Ill.

Jasper Phillips will enter the V. A. Hospital in Nashville on Wednesday of this week for ob-

servation and possible hospital treatment due to a back ailment. The Rev. McDougal performed the wedding ceremony on Saturday evening of Miss Betty Thompson and James Earl McGraw of Florence. Miss Thompson is the daughter of Hollis Thompson, and James Earl is the son of the Aubrey McGraw's.

The last 4-H Club meeting for this year was held April 14. Miss Celeste Hurly, local leader, was in charge of the program and discussed with the girls plans and purposes of the 4-H Club camp that will be held sometime in May.

Four-H Club council meeting will be held May 19th. The Talent contest is set for May 3. The Skirt and apron review will also be held then. Miss Hurley announced to the group that two trips to the county 4-H Club camp will be awarded to one boy and one 4-H girl by the North Florence Kiwanis Club. Selection will be based on a story written by the 4-H clubbers entitled "What I Have Done In 4-H Club This Year" plus completion of the statement—I would like to go to 4-H Club camp because—.

These must be in the hands of the local leaders not later than May 2, 1958.

The Safety essays written by Bill Clinean and Wanda Kilpatrick were selected to compete in the county awards.

The Jr. Humane Society met April 7, and the program consisted of a play given by members of the fifth grade. We will only have one more meeting during the year, and it will be in the form of an evaluation.

HOW TO BUILD YOUR HOUSE OF SAVINGS

(with apologies to the 3 little pigs)

You can build your house with straw. (But it may not keep you dry if a rainy day comes along.)

You can build your house with sticks. (But the winds of adversity might blow it down.)

The best way to build your house is with a solid foundation of bricks. (And U. S. Savings Bonds are the best savings bricks you can buy.)

Bonds are sold as a rock—guaranteed by your Government. They're loss-proof, fire-proof, theft-proof—the Treasury will replace them without charge in case of mishap. And the principal invested in Bonds is safe—not subject to market fluctuations.

Best of all, Savings Bonds now pay you higher interest—faster! Every Series E Bond purchased since February 1, 1957, pays you a safe and sure 3½% interest when held to maturity. It pays higher interest, too, in the earlier years, and matures in only 8 years and 11 months.

Remember, the way to keep the big bad wolf from your door is to build your house of savings with bricks—the safe and sure U. S. Savings Bond kind.

Start buying Bonds regularly today—on the Payroll Savings Plan where you work or where you bank.

PART OF EVERY AMERICAN'S SAVINGS BELONGS IN U. S. SAVINGS BONDS

Telephone Talk

by FRANK REYNOLDS

Your Telephone Manager

100 HOUR WORK WEEK: One of those efficiency expert-type fellows has estimated recently that, even with a house full of modern appliances, the average mother works nearly 100 hours weekly. That's a mighty long week, but think what it would be without today's conveniences! The telephone alone saves countless hours and steps. Housewives shop by phone, visit, call plumbers and other service folks—attend to all sorts of errands they'd have to run if they didn't have a phone. And no matter when it's needed, your telephone is always there, 24 hours a day. Best of all, in these days of high costs it's still one of the biggest bargains in the family budget.

PAMPER MOM! Mother's Day is May 11. Now that we've added up Mom's weekly work hours, the least we can do is give her a hand. What could be a better Mother's Day gift than an extension phone? Maybe even more than one, so she'll have them near her most talked-from spots. You can get them in spring-pastel shades. So lovely with Mother's room colors! For instance, perfect for the feminine touch are aqua, rose pink, light beige, light gray, ivory or white. Or, to add a vivid dash of color choose cherry red, bright yellow, or green. They cost less than you think, too, so just call us and we'll do the rest.

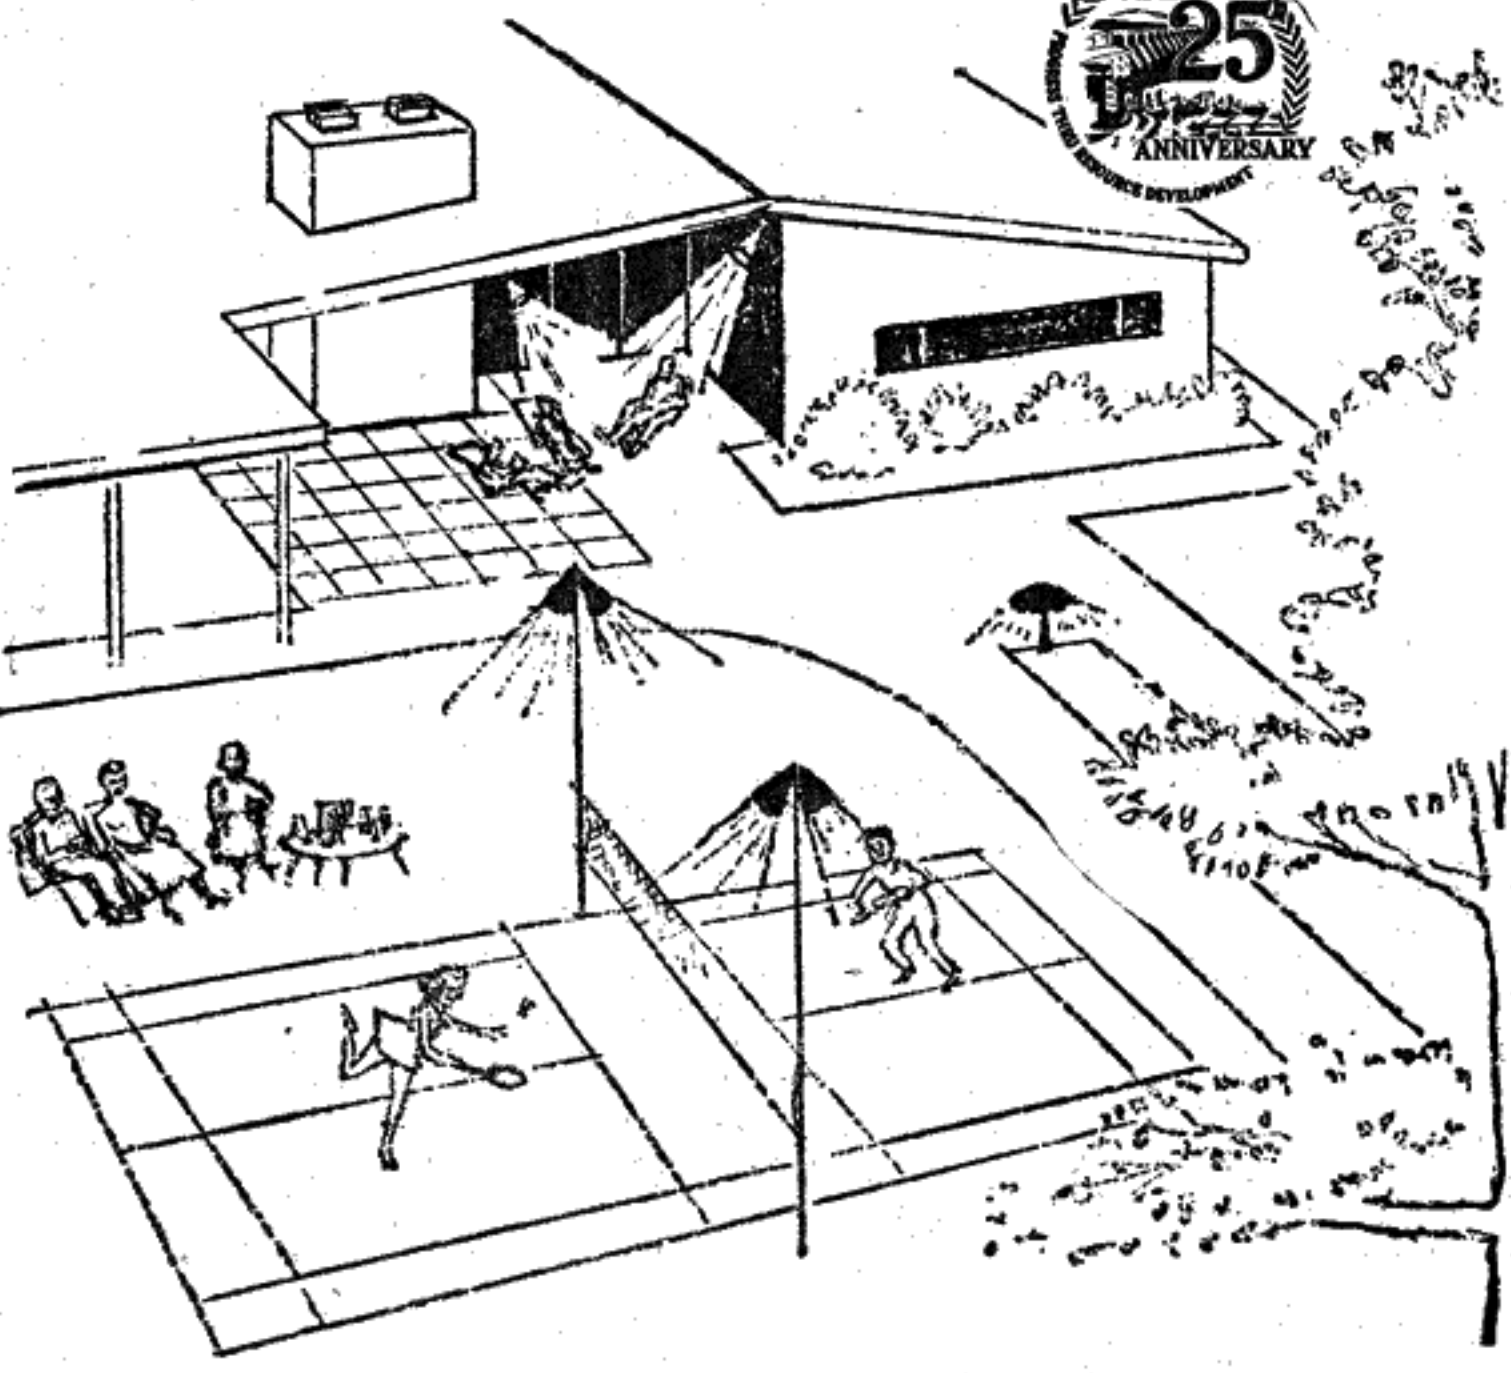

P. S. Extension phones make ideal gifts the year 'round, too!

TROUBLED LADY ... There's a tear on her pretty cheek but it will soon be gone. For troubles are forgotten quickly when one is very young. Many a grown-up trouble also has a way of disappearing when there are friendly voices to help and reassure. Just reaching for the telephone and talking to someone can bring sunshine into a dark or worried day. For whatever the need or the hour, you are never alone with a telephone.
