A certain father had used every subtle means at his command to remind his daughter's boy friend when the hour arrived that he thought he should go home. The old system of dropping a shoe in the bedroom had been used until it no longer was effective; flicking the hall light proved of no value and calling downstairs to see if the cat had been put out for the night was of no avail. Finally, the old boy tried a new one: Dressed in early morning attire, he'd walk through the sitting room with a box of breakfast cereal under one arm and a bottle of milk under the other. It's working now but how long it will do the job, he does not know.

Reduction In Revenue Will Cause System To Operate With Deficit

The Lauderdale County Board of Education, in session Saturday, found itself facing a financial problem as the result of the decrease in school revenues caused by the drop in tax receipts, Allen Thorn-ton, superintendent, stated.

As a result of the study given the present situation by the board, it was revealed that the year's operation has a possibility of end-ing with a deficit. ### Who Is To Blame?

The experts tell us that much is wrong with our school system but hardly any of them deal with causes. Hence the schools, teachers and school boards have come in for a lot of criticism for a situation they had little to do with.

For one thing this nation's school population has grown faster than anticipated and certainly faster than schools could be built to take care of the growth. Two great American ideals . . . good education and low taxation collided with a very loud bang not so very long ago and today the din is deafening. To make matters worse it is coupled with a demand that educators find a solution in a hurry for a situation that certainly requires long-range appraising by seriousminded people who are willing to get down to the community level and work up.

Constructive action cannot be accomplished by people unwilling to do this. It will be done by people who are patient with different points of view and who are capable of enlarging areas of agreement. To say that schools today are no good is far from true. When we consider first that the public is largely responsible for the condition schools are in, it is remarkable that they function as well as they do.

We must remember that many towns with a hundred or so high school students a generation ago now have thousands. During that time it goes without saying that increasing taxation to take care of this great increase in school population has not been easy. And, too, there has been a profound change in education, not brought about by theorizing professors but by public demand . . . a demand for a high school diploma for every child. The fact that every child is not capable of straight classical program mattered as little as did the protests from plenty of educators.

No one voice gave the answer but it was worked out gradually through thousands of day-to-day decisions at countless school board meetings throughout the land. The educators were trying to meet this growing public demand which ther the child was capable of taking college preparatory work Of Bookmobile or not. Many new subjects were added as the preparatory work or not. Many new subjects were added as the educators did their best to provide useful subjects without handicapping the more gifted.

A ternado that took 29 lives in four Wisconsin counties last week cut a 90 mile-wide swath of destruction that left 100 others injured and property damage estimated in the hundreds of thousands. More than 100 homes were badly damaged or destroyed.

The House by a roll call vote of 224-158 Thursday rejected the President's plan to cut the Army to 870,000 men during the next 12 months. The House passed a \$38,409,561,000 defense appropriation bill.

The United States Monday asked Russia to release eight American officers and enlisted men who were downed over East German territory during a helicopter flight. A communique said all the men held were safe. U. S. officials pointed out that this country is an occupation power in Germany and has a four-power agreement concerning such incidents.

A 19-year-old Negro went for a swim in the public pool at St. Petersburg, Fla., Sunday. The pool open to white bathers only was closed immediately as was the adjoining municipal beach several days before when several Negro swimmers used the bath houses and went swimming. There was no disorder.

British Prime Minister Harold Macmillan returned to his homeland Sunday after addressing the commencement exercises at Depauw University at Greencastle, Ind. He warned that all free nations "face a common danger" and urged that the free world make certain that not only military alliances but political thoughts and economic policies match up to the great scientific and technical advances.

At least four persons were killed on the outskirts of Atlanta when a tractor trailer went out of control on a hill and struck four automobiles on the Chattahoochee River bridge. Two of those killed were burned to death in the cab of the truck. Seven others were hospitalized.

The Senate Thursday approved the House-passed 10 per cent pay increase bill for civil service employees. The bill which will cost the nation an estimated \$542 million a year was bitterly contested, two Senators contending the raise would be inflationary and that the national debt limit would have to be raised.

President Eisenhower delivering the commencement address at the U.S. Naval Academy last week urged the 900 graduates to become "crusaders for peace" and help improve the country's relations with the rest of the world. Mr. Eisenhower was the first chief executive to attend the exercises in 20 years.

Actor Robert Donat, remembered in "Goodbye Mr. Chips," died in a London Hospital on June 6. He had been in poor health for the last 20 years. He was an Academy award winner in 1939 for his movie role as Mr. Chips

Colonel Vernon S. Brown of Lauderdale County, was one of a special group of Alabama civic leaders who have just received awards from the Alabama Heart Association for "outstanding service" in the fight against heart diseases during the 1958 Heart Fund Drive.

The awards were made by State Heart Fund Chairman, General Walter J. Hanna, of Birmingham, who cited the heart leaders for their "loyal devotion to a great health crusade." "Thru leadership such as you have given," stated General Hanna, "the Heart Fund has shown a growth increase of approximately 56% over last In presenting the awards, Gen-

(Pd. political announcement by Friends and Supporters of

Geo. C. Wallace, of Lauderdale, Colbert and Franklin Counties).

It is with great humility that I express my heart-

felt gratitude for the kindness and support of the

fine people of North Alabama. During the recent campaign I made many new friends which I regard

with highest esteem. It has been a gratifying expe-

rience to work side by side with such wonderful

people and to get to know them. For the up-coming

four years let us continue to work hard and sincerely

for good government for our Great State. Again let

me say THANK YOU from the bottom of my heart.

# Some to Shurch for Bervices

"A FAMILY THAT WORSHIPS TOGETHER - STAYS TOGETHER"

Jimmy to Daily Vacation Church School, it was for a selfish reason. Having them at school each day would give me a couple of carefree hours of my own!

Then, the first afternoon, they came home bursting with enthusiasm. While I gave them a snack, they sang me a song they had learned, based on the books of the Bibleand they knew each one! Guiltily, I asked myself if I could do as well!

Vacation Church School will be over in another week. but in our house it's going to continue until fall. Each morning, Eileen, Jimmy and I will have a school session of our own, and they can help me re-learn some of the things I'd half forgotten. And when next summer comes, Eileen and Jimmy will be going to Vacation Church School again-but for themselves, this time, not for me!

Without a strong Church neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself. which needs his moral and material support. ### Control Grubs **Before Planting**

White grubs are fat, U-shaped worms that you often turn up when spading the garden plot.

Entomologists warn, however, that for every grub you see, there are probably five or six more you don't see. If you find one grub-for every three shovels of soil that you turn over, you should treat the soil with an insecticide before planting, insect specialists recom-

Granular dieldrin, DDT, or chlordane dust, sprinkled on the soil before working up the beds, will do a good job of controlling grubs in the garden.

Control of vegetable garden pests that are below the ground surface is just as important as those that

feed above the ground.

### Look For Plenty Of Weevils This Year

Entomologists believe there will be plenty of boll weevils in Alabama this year. In a report made this week to

county and assistant agents over the state, API Extension Survey Entomologist Walter Grimes said that an overwintering boll weevil survey was conducted during the early part of the year. One of his statements concerning the observation is that boll weevils will be plentiful again this year, particularly in central and south Alabama. Grimes expects north Alabama's weevil infestations to be below those of 1957.

Grimes pointed out that beneficial insects will be of major importance in controlling boll wee-

MORE CORN BORERS TO

Infestation by the European corn borer is becoming heavier and more widespread. According to API Extension Entomologist Jerry Ruffin the average number of borers in the U.S. per 100 corn plants increased from 112 to 170 between 1956 and 1957.

### Fires Originate In TV Receivers

Owners Should Install **Lightning Arrester To** 

This rapid growth in number, LAUDERDALE COUNTY SHOWS and the fact that many fires origi- FIFTEEN NEW CANCER CASES nate in television receivers, points up the need for attention to TV safety. This is particularly applicable to the installation of the sets and their antenna systems.

API Extension William Cox pointed out that any high metal structure is a likely target for lightning stroke—one down the lead-in wire to the television set, and the other down the supporting mast and through the building. That's why a TV owner should make sure a lightning arrester is installed on the lead-in wire to drain off the charge to the ground without its going through the building.

Cox warned that television receivers contain high voltages and are too complex for amateur tinkering. Unskilled handling can result in a severe or even fatal shock. If a set needs fixing, a competent repair man should be call-

The set should never be placed on a radiator or other source of heat, nor should it be left turned on while unattended. Because of the inherent hazard of electric shock, particular care should be exercised in using a television receiver out doors. Remember, too, says Cox, to keep ventilating holes clean and open.

Last year more than \$200,000 worth of diamonds were used to streamline 48,000,000 miles of copper wire to uniform size. You don't ordinarily think of diamonds when you think of everyday telephone service, but it takes many products and many people to keep the calls going through,

REMEMBER THIS ONE? A lot of our young people may be humming it as June brings their wedding day closer. If you'd like to "ring a bell" with a gift that's really different, send the happy couple an extension phone in color to match their new apartment or home! We have nine decorator shades to choose from. It's the ideal gift because it's inexpensive as well as good-looking and practical.

TIPS TO HUBBY: Just a little reminder that last June's bride is this year's anniversary girl. Surprise her with a lovely extension phone . . . have a new "bell" ringing for you and your gal.

**STRMPPH!** LA LA! Overseas telephone service is now provided to 119 countries and territories. Last year use of this service increased 20% over the preceding year. Between points served by new underseas cables the increase was even greater,

HERE IN OUR OWN COUNTRY Long Distance calling increased 7.5%. Looks like folks realize more and more just how nice it is to keep in touch with out-of-town friends and relatives.
