Munro To Speak Tonight At Coffee High Auditorium

Distinguished Visitor Is President Of General Assembly United Nations

A distinguished visitor to this area will speak in Coffee Auditorium tonight at 8:15 p.m. He is Sir Leslie Munro, president of the General Assembly of the United Nations.

SIR LESLIE MUNRO

Nations, Knight Commander of the order of St. Michael and St. George and Knight, Commander of the Royal Victorian Order.

Born in Auckland, New Zealand, in 1901, Sir Leslie came to the United States as Ambassador February 1952. At the same time he was appointed Permanent Representative of New Zealand to the United Nations.

The year before, he had spent four months in the U.S. as a guest of the State Department under terms of the Smith-Mundt Act. During this visit he met leading personalities in both government and law, and travelled extensively. He made a particular study of American politics, foreign policy and university education.

Since his arrival in the United States in 1952, Sir Leslie's responsibilities as Ambassador and as Permanent Representative to the United Nations have required him to concentrate most of his energies in Washington and New York. He has, however, found time to visit most parts of the country and to speak to people in many walks of life, to groups of students, lawyers and Rotarians, and to women's organizations. He has also made many broadcasts and has appeared frequently on television.

Sir Leslie was elected President of the Twelfth Regular Session of the General Assembly of the United Nations on September 17, 1957, and presided over the 3rd Emergency Session in August 1958. He relinquished his appointments as Ambassador to the United States and Permanent Representative to the United Nations on September 16, 1958.

The speaker is being presented here by the Danforth Program, Florence State College.

There is no admission fee.

Annual Fat Calf Show Successful

Lions Sponsored Event Held At Waterloo On Monday Well Attended

The annual Fat Calf Show sponsored by the Waterloo Lions Club was held on the school campus on Monday, April 25. This affair was held to allow the FFA and 4-H Club members to exhibit their calves before the county show.

Lion President Berl Harrison, was in charge of the program, while Charles Murphy served as ring manager, and James Boswell, Don Canaday, Wayland Cross, and W. B. Hagood were members of the weighing and entrance committee.

Judges were the King brothers of the King and Mewburn Stockyards, and James Stanfield, International Chemical Company.

There were seven FFA and three 4-H Club entries. William B. Hagood, Vocational Agriculture instructor and FFA Advisor, worked not only with his own group but with the 4-H Club members as well. He went with the boys and girls to help select the calves and much credit is due him for the success of the show.

In the lightweight division the entries were all by FFA members, Douglas Baskins, Fred Condry, Ronnie Murphy, Jesse Robertson, and William Watkins.

First place prize of \$8.00 was awarded to Douglas Baskins. This was more than just an award for Douglas—it was the result of his courage in the face of what seemed to be an insurmountable odds. Two years ago Douglas was badly burned and for over a year was in a hospital battling for his life. He was able to return to school this year and has worked on this project in Vocational Agriculture.

Second prize of \$5.00 went to Ronnie Murphy, and third prize of \$3.00 was awarded Jesse Robertson.

In the heavyweight division, calves were shown by FFA members Leonard Holcombe and Ken- (Continued on Page 2)

Committee Endorses Loyal Slate

Pointing out the importance of electing the slate of eleven Loyal Democrat Electors on May 3, the Lauderdale County Democratic Executive Committee, Charles A. Poellnitz, chairman, has issued a resolution endorsing these candidates and recommending them to the voters.

The resolution calls attention to the fact that members of the committee are vitally interested in "getting the Republicans out of the White House" and are vitally interested in seeing that a Democrat is elected president of the United States in the November election.

The committee's resolution further points to the great achievements of Democratic administrations, especially TVA. It also states its belief that in the forthcoming Democratic primaries those seeking office should run as Democrats.

The resolution, signed by Mr. Poellnitz as chairman, and adopted in special meeting on April 20, 1960, gave its unanimous support to the following eleven electors who have pledged to cast their vote for President and Vice President who are nominated at the forthcoming Democratic National Convention:

C. G. Allen, Dave Archer, C. L. (Leonard) Beard, J. E. Brantley, W. L. (Bill) Chenault, Milton K. Cummings, Karl Harrison, Bill Jones, William D. (Billy) Partlow, Ben F. Ray, and D. Hardy Riddle.

Grading Begun For Wing At Mitchell-Hollingsworth

Architect's Plans Near Ready; Construction Bids Soon To Be Asked

Grading of the area on which the new 15-bed wing is to be added to Mitchell-Hollingsworth Annex of Eliza Coffee Memorial Hospital was started this week under the supervision of the City of Florence street department, Mayor E. F. Martin announced. Work is well underway as the dirt from the higher places is being moved to fill the lower spots, thus leveling off a most attractive section that will be used. The architect's plans for the building will be ready shortly and construction bids will be asked.

The new wing, the first of three that will be constructed, was made possible by a Hill-Burton grant and certain other sums to be raised for the equipping of the badly needed addition. When the three new wings, which will be attached to the present structure, are completed this splendid asset of the hospital service of the city and county will have 60 beds available. Today, there is a waiting list for these accommodations.

The Board of Governors of the hospital feel that the increasing of the size of Mitchell-Hollingsworth is almost as important as the \$2,000,000 additions now nearing completion at Eliza Coffee Memorial Hospital. The wing at Mitchell-Hollingsworth will entail an expenditure of \$123,000, Mayor Martin said.

Eisenhower, de Gaulle Agree On Summit Action; New York Gives French President Big Welcome

"THE PAST WARNS"—Portraits of noted Jews of Germany form an unusual picture gallery, as a workman makes final preparations for an exhibition in Berlin titled "The Past Warns." Sponsored by the International Union for Human Rights, it dramatizes work of Germans of Jewish extraction.

Hope Expressed Khrushchev Will Soft-Pedal Berlin

President Eisenhower and French President Charles de Gaulle during four days of talks ending Tuesday agreed on action the two countries would take at the summit conference in Paris next month. It was clear that there would be little improvement in East-West tensions if Soviet Premier Nikita Khrushchev continued to press his demands for Berlin. Their hope is Khrushchev will soft-pedal his demands so that a common ground for disarmament discussions may be reached.

Both Eisenhower and de Gaulle were reported confident that Britain's Prime Minister Harold Macmillan would be in agreement with their agreement on these issues. Macmillan will join the two in Paris for the meeting which begins on May 16. De Gaulle was reported as well pleased with the conference with this nation's chief executive.

This did not mean, it was pointed out, that de Gaulle had reversed his decision to permit the U.S. to establish bases for nuclear weapons on French soil. The French President has insisted that France have and control her own atomic weapons.

De Gaulle in New York
General de Gaulle, who flew to New York following the end of his conference with Mr. Eisenhower, was accorded a warm welcome as "Vive de Gaulle" rose from thousands of throats as the French leader was borne along the route in Mr. Eisenhower's bubble-topped limousine supplied for the occasion. Others less formally cried out "Hey-Charles."

After the parade de Gaulle, arriving at the Hotel Astor ignored the red carpet spread for his occasion and walked through the crowd gathered there and shook hands with as many as he could reach among the 20,000 spectators.

The police escort charged with General de Gaulle's safety however soon ringed the 6 foot, 4 inch figure and virtually shoved him into the hotel.

Police estimated a million people lined the parade route to get a glimpse of the French World War II hero.

The Passing Parade

By HAROLD S. MAY

● All we have to say is that you should go to the polls Tuesday and cast a carefully thought-out ballot. Several important posts are to be filled and, in addition, much of the future of the area and the South will depend on the selection of the right delegates to the Democratic National Convention and the Presidential Electors who will record your vote for you later this year. Every eligible voter should take pride in casting a ballot in the primary. Nothing is more important on that day.

● A good listener is usually thinking about something else.

● A local fisherman reports that Saturday he decided to make up for lost time and spend the day fishing, since he had been informed that the fish were biting. He found a nice spot at the end of an old pier and began fishing in earnest. Just a few minutes later, a stranger arrived and found a seat just back of him and all day long he sat there, watching intently. Finally, the fisherman got the heebie jeebies, as he could feel the stranger's eyes on his back, turned and asked with sarcastic politeness: "Did it ever occur to you to do some fishing of your own?" "Never," was the answer. "I haven't the patience for it."

● How to refuse gracefully an invitation that conflicts with your plans is an art which few know.

● The Chicago real estate agent was showing a man and his wife a home in a new development. "To show that I am honest," said the agent, "I will tell you that this house has both good and bad points. Now for the disadvantages, there is a distillery one mile south and the stockyards are one mile north." Puzzled, the prospective buyer asked: "And the advantages?" "Well," answered the honest one, "you can always tell which way the wind is blowing."

● Men pursue women; women set traps. It's just that easy.

● Two men in a jeep were rushing across an African desert to join a safari that had departed several days earlier. Deep in the desert they spied a man who was running along at a fast clip attired in a bathing suit. When overtaken and asked for the reason for his costume, he replied, "I'm on my way to have a swim." "Have a swim?" exclaimed one of the wanderers, "why it's 500 miles to the sea." "Five hundred miles!" cried the would-be bather. "By jove, what a splendid beach!"

● If you don't vote in Tuesday's Democratic primary, then you have no right to complain about the final outcome.

● In a recent Internal Revenue Service report it is noted that two of its agents were ordered to locate a large illegal still in a backwoods section of North Carolina. Approaching the area where they had reasons to believe the still was located, they chanced upon an old mountaineer. One of the agents got out of the car and met him a short distance up the road while the other remained in the car. Asked about the reported still, the old man said he had never heard of it; in fact, felt certain that there were no stills within many miles of where they stood. The old man would not change his information after much urging, though the agent insisted. Finally, the agent pulled out his walkie-talkie and said he would "buzz heaven". The other agent, in the car, tuned in and said he would talk to the old man. "This is the Angel Gabriel," he said in a stern voice. "Why did you lie? The old man, visibly shaken, quickly told not only the location of the still in question but of three other stills, as well.

● Prime Minister Nehru, of India, Tuesday rejected a proposal by Red China's Chou En-lai that India abandon her claim to 15,000 sq. miles in the Ladakh sector of Kashmir in exchange for clear title to 36,000 square miles on the northeast frontier. Nehru told reporters at the airport, after seeing Chou off to Nepal, "There can be no question of bartering away this area. Its ownership by India is a settled fact."

● "The total of dead is not expected to reach 500," said Dr. Hussein Khalil, director of Iran's Red Cross, after conferring with officials who visited the quake-shattered city of Lar, Iran, some 550 miles south of Tehran. ● The New York Times reported Tuesday that it would publish "an appropriate correction" if any incorrect or inaccurate statements were made in two stories on race relation in Birmingham, Ala., which appeared in the April 12 and 13 editions. The Times also published the text of the letters, signed by Mayor James W. Morgan, Eugene Connor, commissioner of public safety and J. T. Waggoner, commissioner of public improvements. The three complained that the Times stories, written by Harrison E. Salisbury, falsely inferred that Birmingham had encouraged or condoned racial hatred or religious intolerance.

● Foreign Minister Huh Chung said Wednesday that South Korea's President Syngman Rhee had formally submitted his resignation, which was sent to the cabinet secretariat to be relayed to the National Assembly. The assembly, which asked Rhee Tuesday to resign immediately, accepted the resignation. Thousands of Koreans joyously celebrated the collapse of President Syngman Rhee's 12-year-old regime as a liberation from dictatorship. John Sparkman... Faithful Servant

For a long time now Alabamians have gone to the polls and cast their votes for John Sparkman. In fact most of us do it as a matter of course. Whether the genial junior Senator has any opposition or not. Mainly we don't want anybody else but John Sparkman, so, even if nobody's running 'agin' him we owe him a vote anyway. It's the least we can do for a man who has fought and won so many battles for his state and nation.

Just keep in mind when you go to the polls that a whopping big vote will give John something to show for his trouble and make him mighty proud he is still representing a state full of faithful constituents who appreciate his efforts. Being a Senator isn't easy. There are many, many demands on a man in high public office and while there are a lot of things he can do there are also a lot of things he can't.

There is one thing especially outstanding about John Sparkman that you can't say about too many men who have reached the heights that he has. . . and that is he has never "outgrown" the overalls he wore back on the farm. He is the same John Sparkman, make no mistake. He knows the problems of the farmer first hand, he knows the problems of little business and he knows the problems of the people who want a better standard of living through better housing. Besides that John is well liked by his colleagues and he knows how to get a job done.

It's pretty safe to say that as long as John Sparkman wants the job he now has he can have it. He can also have our vote.

An Optimistic Note

Alabama Industry Days ending April 30 are dedicated to the theme "What Alabama makes, makes Alabama." Industrial wages in Alabama are the highest in the South and retail sales, postal receipts, bank deposits, building and other indicators point toward prosperous times and an expanding economy throughout the state.

Most areas in Alabama still depend largely on agriculture and livestock with the latter rising some five per cent at the beginning of this year compared to a year ago. The state's swine industry rose some 18 per cent and total livestock now accounts for more than half of Alabama's farm income.

Prospects for industrial growth in the Tennessee Valley look increasingly better as this area is on the move to interest new industries seeking favorable climate, low cost electricity and river transportation. Particularly fortunate is the Shoals area where giant aluminum and other industries make the location of many other types of manufacturing economically feasible.

Alabama Industry Days, sponsored annually by leading industries of the state in cooperation with state and local agencies throughout every section of the state, is indicative of a real interest on the part of leaders in every field of industry. Coordinating the efforts of all groups and assisting in many ways to develop the state's industrial potential, is the State Planning and Industrial Development Board under the able leadership of Leland Jones.

The state board has issued pamphlets showing Alabama's tax climate to be one of the best in the entire nation, ranking last among 49 states in amount of state and local taxes per capita. The figure for Alabama is \$100.94, compared to \$237.87 for California; \$229.31 for New York; \$229.24 for Nevada; \$210.20 for Massachusetts; \$159.45 for Florida; \$123.93 for Georgia; \$118.12 for Tennessee and \$108.58 for Mississippi. Only one state, Arkansas, ranked below Alabama with \$100.40.

Alabama's tax levies on corporations are the lowest in 10 southern states. Three bordering states have a use tax on machinery double that of Alabama. Alabama also has the lowest per capita property tax of any state in the nation—72 per cent less than the national average.

For Alabama . . . things are looking up.

The board of directors of Union Carbide Corporation has today declared a quarterly dividend of ninety cents (90c) per share on the outstanding capital stock of the Corporation payable June 1, 1960, to stockholders of record May 2, 1960.

Castro Accuses U.S. of Plot

Cuban Prime Minister Fidel Castro Sunday, in accusing the Eisenhower administration of trying to set up a "fifth column" in Cuba, charged that recent remarks by Eisenhower and Secretary of State Christian A. He further charged that statements by the two were part of an intent to create a fifth column to "encourage a counter-revolutionary struggle against the (Cuban) government."

Personality Sketches

By FRANCES HALL

E. L. CULVER

"Few men that I have known have the drive and know-how for putting into action his dreams, with the certainty of ultimate success, as has Mr. Culver. When he gets an idea that he deems workable and is for the good of the Muscle Shoals area and his companies, nothing deters him until he achieves his goal," is the remark made by one who has been closely associated with him for many years.

"A native son of Lauderdale County, E. L. Culver brings to local business an administrative ability that is truly commendable," was the added remark. Ezra L. Culver was born in Waterloo, the son of G. W. and Virginia Haynes Culver. He attended school at Waterloo.

In 1929, he was married to the former Edith Newman of Waterloo and they now make their home in Hickory Hills. There are no children.

Early in his young manhood, he had visions of improving his economic status and unlike many who have such a dream decided to put his into action.

He secured a position with the Cement Gun Company in its Chicago branch and for 13 years performed many and varied jobs for the concern. Included in this work was the construction of swimming pools, which attracted much of his interest. Although having risen to an important post with the company, in 1937 Mr. Culver decided his future lay in the operation of his own business and that year established his own engineering and construction firm, the Pressure Concrete Company with headquarters in Newark, New Jersey.

Here he operated that business for approximately 18 years with several branches, including one in Florence. In 1946, Mr. Culver established his home in Florence and early that year organized the Dixie Supply Company and constructed a spacious building for the concern on South Court Street. In 1948, the Tri City Ready-Mix and Asphalt Company was founded and placed in operation. Later the name of the latter firm was changed to the Richland Development Company under which it is now operated.

In 1954, E. L. Culver founded the National Pool Equipment Company which designs, manufactures and sells pools and equipment throughout the United States and several foreign countries. At that time National Pool had its headquarters in Birmingham with a small branch in Florence. Later the entire operation was moved into its spacious quarters in Florence, where it is now undergoing steady expansion.

Until 1959, Mr. Culver served as president of National Pool but recently was elevated to the position of Chairman of the Board and Treasurer.

Last year, Mr. Culver was named "Man of the Year" by the Swimming Pool Weekly of Fort Lauderdale, Fla., this being the first annual award of this nature to be made by the swimming pool industry. The citation that accompanied the award attested to Mr. Culver's leadership in this, one of America's fastest growing industries.

Claiming much of Mr. Culver's attention at the present is the operation of Richland Development Company which is engaged in the construction of motels, a handsome new Holiday Inn in Florence having just been completed and placed in operation. At least four more motels of similar scope are to be constructed in the near future, Mr. Culver said. In addition, Mr. Culver hints of a most important announcement in connection with National Pool soon to be made.

From his earliest years, Mr. Culver has been vitally interested in farming and its development and now operates a large farm on Chisholm Highway where he receives a great deal of pleasure and relaxation in the raising of Welsh ponies. At present, 70 head roam his pastures.

Mr. Culver's return to his home county after achieving success in other areas of the country, demonstrates his affection for the Muscle Shoals district where he got his start in life. He has brought a valuable industry to Florence and by gathering about him much local talent contributes doubly to local prosperity.

Mrs. White Hostess To Thursday Study Club

A short business session was conducted by Mrs. W. M. Sloan, president of Thursday Study Club, before the program of last week's meeting was presented by Mrs. Bernarr Cresap, reviewer for the afternoon.

"Day Before Yesterday," by Mrs. Theodore Roosevelt, Jr., was Mrs. Cresap's choice of entertainment for her listeners. The story, a collection of beguiling reminiscences by the widow of President Theodore Roosevelt's eldest son, tells of an unusual and eventful marriage and provides a brilliant historical portrait of early 20th century America.

Spring blossoms centered the treatable where Mrs. Elmer Russell and Mrs. C. A. Young served salad and punch.

The next meeting is scheduled for May 5th with Mrs. Ralph Smith to serve as hostess at her home, 21 Malone Circle.

Good Citizenship Girls Honored At DAR Meeting

Mrs. E. W. Henley was hostess for the April meeting of Alabama Chapter, Daughters of the American Revolution, on Friday afternoon at her home on Walnut Street.

Mrs. S. Baxter Wilson, regent, presided. The Chapter went on record as opposing any removal of Florence historical landmarks with special emphasis on the currently discussed Lauderdale County Court House and Wilson Park. Reports on state and national conventions were given by Mrs. J. Will Young and Mrs. J. W. Powell. Mrs. Paul M. Wilson reported that a new auditorium-gymnasium is under construction at the Kate Duncan Smith DAR School on Gunterville Mountain. The new building, financed by all chapters, will be called the Doris Pike White Hall in honor of the President General.

Mrs. Leonard Johnson, chairman of the Food Citizenship Committee, presented the guests of honor, Miss Shirley M. Behel from T.M. Rogers School, Miss Barbara Anne Crowder from Central High and Miss Barbara Haynes from Waterloo High. Each expressed appreciation of being the recipient of a DAR Gold Award Pin. Others similarly honored but unable to attend were Miss Jane Keith, Coffee High School, Miss Paulette Long of Lauderdale County High, and Miss Linda Kay Phillips, Lexington High.

It was noted that an article by Mrs. A. J. Darby on General Levi Casey, whose wife and children were interred in a cemetery near Florence, appeared in the April issue of the national DAR magazine.

Arrangements of tulips and an antique bowl of pink and white dogwood on the teatable reflected the Spring season. The refreshment period was highlighted by an informal presentation of piano selections by Mrs. Julian Nance.

treasurer, reported the sending of a check to the State Federation of BPW for the Minnie Stickle Scholarship Fund, and another to Mrs. Maxine Romine, treasurer of Hope Haven, school for retarded children.

James Spain, director of the Florence Recreation Center, spoke to the group on the importance of the center to the community and told of the new recreation center which will soon be built at Weedon Heights.

Delegates named to attend the convention in Montgomery on April 29-May 1 include Mrs. Morton Johnson, Miss Leonard, Miss Inah Mae Young, Miss Mary Richardson, Mrs. Morgan, Mrs. Brooks, Mrs. Viola Clark and Miss Julia Blalock.

One new member, Miss Shirley Moseley, was welcomed.

Florence Newcomer Feted With Morning Courtesy

The home of Mrs. Geneva Boston, 1903 Chisholm Road, was gayed with arrangements of Springtime blossoms on Saturday morning when seventy guests called to greet Mrs. Walter Gable who has recently arrived in Florence where she and her family are now at home.

In a setting of tulips, lilacs and sweetheart roses, the hostess and honoree were joined by the latter's sister, Mrs. Robert Bullard, in receiving informally.

A linen cloth of white cutwork covered the silver-appointed coffee table and assisting here and throughout the home were Mrs. John Wilks, Mrs. J. C. Hamm, Mrs. Louis Bayles, Mrs. R. C. Underwood, Jr., Mrs. Jack Bull and Mrs. Forest Wells.

Party hours were between ten and half past eleven.

Current Events Club Hears Guest Speaker

Florence Golf and Country Club was the setting for the Currents Events Club meeting of Thursday, April 21, when Mrs. T. T. Hackworth welcomed members and additional guests at half past three o'clock.

In the absence of Mrs. E. B. Norton, president, Mrs. Joe Redd, president-elect, was in the chair. Mrs. Jewell Archer, program chairman for the meeting, introduced Mrs. Otto Speake who gave a comprehensive discourse on art including thumb-nail sketches of the Old Masters of the Spanish, Italian, French, Dutch and American schools. Mrs. Robert Martin, president, presided during the business period and Mrs. Hoyt Brock presented the afternoon's program, a delightful talk on Laos. Excerpts from various books and first-hand information gathered by the speaker during her residence in Indo-China were interestingly interwoven.

A late afternoon refreshment hour was a concluding feature.

Severin Talks To Exchange Group

Jack Severin, treasurer and assistant secretary of the Alabama-Tennessee Natural Gas Co., was the speaker before Tuesday's noon meeting of the Florence Exchange Club at Hotel Reeder. Charles Finney had charge of program arrangements and presented the speaker.

Mr. Severin told of the early beginning of the company when William S. Eastep, longtime president and now chairman of the board of directors of the company,

had the idea of bringing natural gas to the Muscle Shoals area. He cited the many obstacles and length of time necessary before natural gas began to flow into the district. Associated with Mr. Eastep in the early beginning were W. L. Foy and the late H. A. Bradshaw, and others, with the first work toward the goal begun in 1944.

Construction of the lines began in 1949 when contact was made with a main transmission line at Selmer, Tenn. The first industrial customer, cut in in 1950, was Reynolds Metals Co., still one of the company's largest users of gas.

The company serves an area from Corinth, Miss., to Huntsville.

Included with Reynolds are Ford and TVA and it appears that Redstone Arsenal is soon to be added as a customer. A contract has been made to serve the Tennessee River Pulp and Paper Co., at Counce, Tenn., when the plant is completed. With 14 distributing systems being served and the industrial users on the increase, a steady growth for the company is assured, Mr. Severin said.

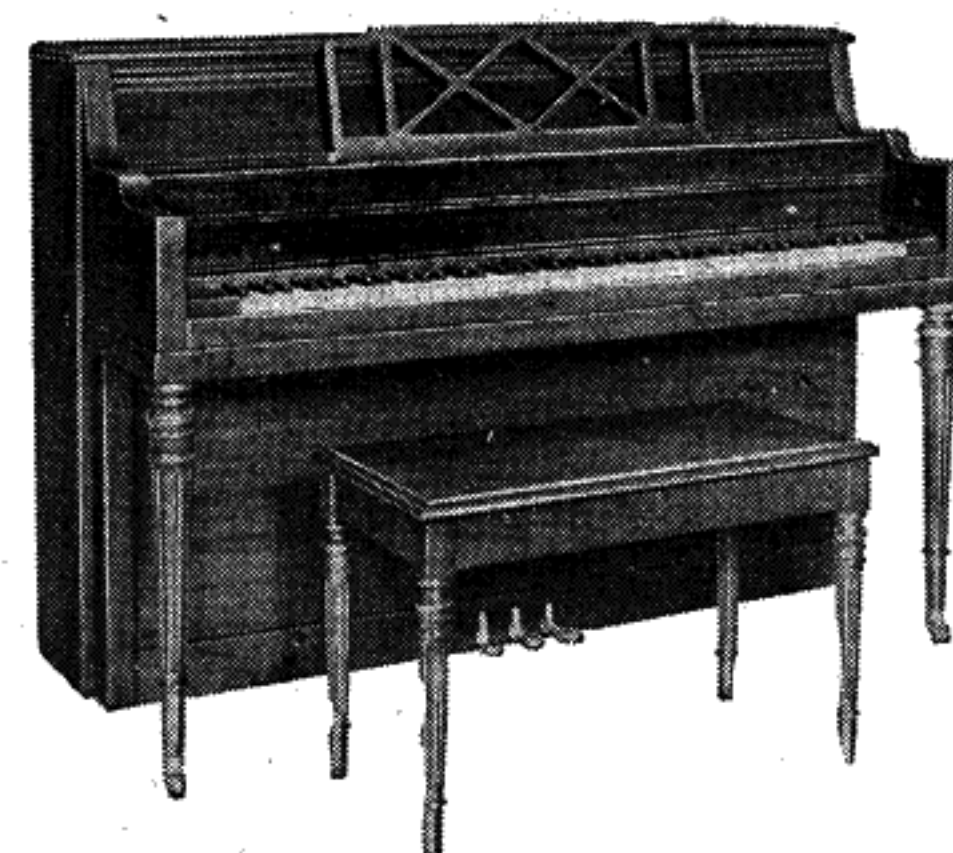

At present the company has 52 employees with a gross payroll of \$350,000 annually.

W. L. Huff, of the TVA, was a club guest.

LEO
Views The College Campus
By MARY BUTLER

It's a funny thing about Florence State . . . as the weather grows warmer and warmer, the social pace gets faster and faster. The college calendar is practically spilling over with meetings, parties, lectures and plays.

Arriving on campus today will be the president of the United Nations General Assembly. Sir Leslie Munro will present a lecture on the role of the United Nations in World Affairs.

The public is invited to attend this program which will be in Corfee Auditorium at 8:00. There will be no admission charge.

After the votes were counted Friday in the cheerleader election, FSC had chosen three girls and three boys to stir up "that ole Florence spirit" at the ballgames.

Elected were Jeanne Campbell, Scottsboro; Elaine Perkins, Central; Mary Butler, Florence; George Reynolds, Sheffield; Joe Hovater, Birmingham; and Jerry Thomas, Decatur.

In the fall election, one girl and one boy will be chosen from the freshmen and new students.

Audrey Behel, a pretty blond from Killen, will reign as May Queen at the annual celebration to be held in the Amphitheater on May 18.

Elected as Maid of Honor was Mary Alice Bobo. Senior members of the Court will be Myra Ashley and Jane Elkins.

Junior maids will be Marcella Campbell and Elaine Perkins. The sophomore member of the Court will be Nell Wade; and the freshman member will be Frances Henderson.

Just about everyone at Florence State is looking forward to the rehearsal Club and Alpha Psi Omega production of William Shakespeare's "The Taming of the Shrew."

The play, which is being directed by Miss Gladys Shepard, will be May 9 and 10 in the Memorial Amphitheater at 3:30 in the afternoon.

Admission will be \$.50 for students and \$.75 for adults.

Members of the cast include Allen Orr, Lee McKnight, Eddie Wood, Robert Scogin, Charles Bruce, Don Jackson, Julia Phillips, Mary Tom Rickard, Bob Hull, Elinor Bond, Jimmy Moore, Elizabeth Scott, Myra Ellis, and Janice Johnson.

Several North Alabama high schools are being visited by the Florence State Concert Band this week.

The Band presented a series of concerts yesterday and today at the following schools: Butler High School, Athens High School, Russellville High School, and Haleyville High School. The band is directed by Dr. Wayne Christeson.

As June, the month for brides, draws nearer, the list of engaged couples and newly-married couples grows longer! FSCites who were married re-

cently include Kay Beard and Bill Clark, Vicki Cochran and Joe Douglas, and Virginia Atkinson and Otis Farmer.

Wearing diamond engagement rings are Bonnie Barnes (from Ralph Sturges), Pam Whitl (from Phil Nielsen), and Virginia Hood (from Jim Childers).

Summer weddings are being planned by Barbara Benson and Fred Staggs, Carolyn Jones and Gordon Morow, Dorothy Davidson and Tom Greenhaw, Brenda Gober and Bill Musgrove, Betty Gautney and Don Holt, and Judy Harrison and Herschel Moore.

Cattle bruising during marketing and processing caused losses ranging from six cents to \$2.77 a head in a study by the U.S. Department of Agriculture's Farmer Cooperative Service. This adds up to a yearly loss of 12 million dollars.

FSC Teacher To Attend Institute

Announcement is made by Dr. Turner W. Allen, dean of Florence State College, that during the Summer months C. Fulton Huff, Jr., associate professor of Chemistry, will attend an Institute of College Chemistry Teachers sponsored by the National Science Foundation. This institute will be held at Emory University in Atlanta.

"This is part of a unified program presenting recent advances of fundamental significance in major fields of Chemistry," explained Mr. Huff. "It will be conducted by the regular faculty at Emory, one of whom is Dr. William H. Jones who was recently in the Tri-Cities for special convocations with the three high schools."

The program will begin early in June and conclude in mid-August.

Betty Darnall In College Production

Miss Betty Darnall, daughter of Mr. and Mrs. Theodore Gerber, 444 N. Wood Ave., will portray the Duchess of Catolica, the feminine lead, in the production of "Death Takes A Holiday" to be staged in Roemer Auditorium at Lindenwood College, St. Charles, Mo., on April 29. The Italian drama, by Alberto Casella, rewritten for the American stage by Walter Ferris, will be the opening event of the annual Parents Weekend at the college, which includes the May Fete crowning of a queen. Miss Darnall is a senior English major. She is president of the League of Women Voters and a member of the student council.

TVA Watershed Inventory Set

**Survey Of Elk River
Area Will Be Made
During Next 6 Weeks**

An inventory of the forests of the Elk River watershed will start next week, TVA said today. The survey, which is expected to take about six weeks, is being made in cooperation with the Elk River Development Association. The Association, headed by Joe Sir, is sharing part of the costs of the survey.

The work involves collecting data on some 200 fifth-acre forest plots, and 300 openland plots. The information sought is essential to the Association's plans for developing resources and industry within the watershed, which embraces 1,400,000 acres, 89 percent of which is in Tennessee and 11 percent in Alabama.

Since 1950 TVA foresters have completed inventories of 71 counties and seven tributary watersheds. Reports on these county and watershed surveys are available to state agencies, industries, local development associations, and other interested persons.

It takes about 60,000 blue corduroy jackets each year to satisfy the demands of FFA members throughout the nation.

A Letter To All The People Of Lauderdale County

FROM

Allen Thornton

CANDIDATE FOR

**SUPERINTENDENT
OF EDUCATION**

In The Democratic Primary May 3

ALLEN THORNTON

• I am thankful for the privilege which you have given me of serving the children of our county as your Superintendent of Education and for the spirit of cooperation in which you have helped me to discharge the duties of the office. The cordial manner in which you have received me during this campaign for reelection is also sincerely appreciated.

• In serving as your Superintendent, I have always tried to keep uppermost in my mind those things that would prove best for everyone concerned. Whatever is best for the children and the schools must come first and to this end I have always been dedicated. Our school system shows on every hand the splendid progress that has been made in recent years and for all of this I feel that we may take justifiable pride.

• I am anxious to continue to serve you in the office of Superintendent of Education, an office for which I have been trained throughout my adult life and which, to me, is the most important elective office in the county.

• It is my sincere hope that I have rendered a service to our county that warrants my reelection and I assure you that, if honored with election, I shall continue to do all possible to work for you and with you in all phases of school work.

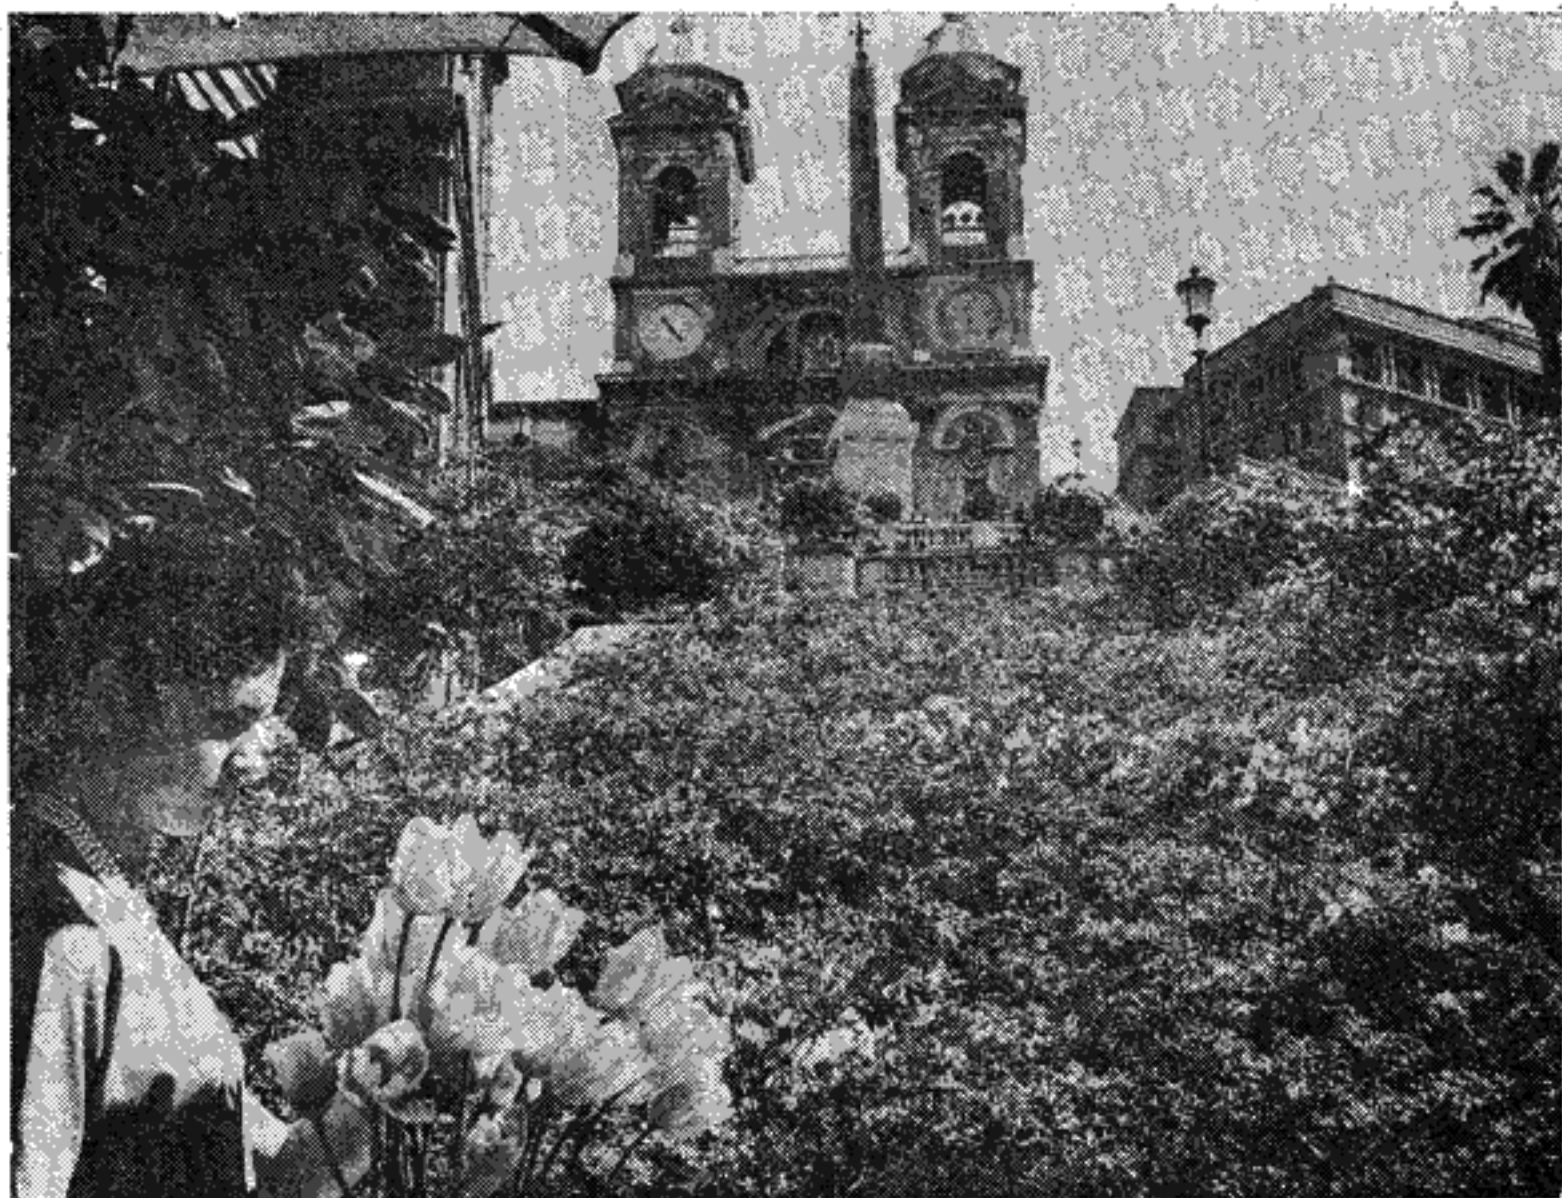

• I am asking for your vote next Tuesday and sincerely hope that I may deserve it. Thank you so much for reading my message.

Cordially Yours,

ALLEN THORNTON

Big Airport Program Launched In Alabama

State Is Number One In Nation In Development Small Town Systems

Alabama is now embarked on its largest state-aid airport construction program in history.

A rapid increase in air traffic has brought about the extensive statewide airport construction program. Built around state grants, this year's program—the largest ever—includes projects costing more than \$2 million.

The state money comes solely from the 7-cents-a-gallon aviation gasoline tax.

For its 1960 program, the Department of Aeronautics has authorized state grants of \$969,500 for a total of 48 projects in 43 localities. Local sources match the state money, usually putting up about \$3 for every \$1 of state funds.

Asa Rountree, Jr., veteran state director of aeronautics, proudly points out that most of the state aid goes to airports unable to secure Federal airport grants. Only four of the 48 projects on this year's schedule have Federal funds in addition to state funds.

"Since 1950, no small town in Alabama has received a Federal airport grant," Mr. Rountree said. "All the Federal grants have gone to the 10 major cities with airline service."

Of Alabama's 49 municipal fields, 33 have paved runways. As a matter of fact, these airports have a total of 66 runways, and only four of these were built with any Federal funds. All the others were financed with state money.

Gov. Patterson views the Airport Program for Small Towns as a "boon for business and industrial flying as well as general aviation" throughout the state. "We are putting our aviation gasoline tax to good use by building airports where they are needed all over Alabama."

In a run-down of the state's airport program, here is a list of municipal airports prior to start of the state program in 1948:

Alexander City, Anniston, Auburn-Opelika, Birmingham, Brewton, Clanton, Demopolis, Dothan, Enterprise (later abandoned), Eu-
faula, Eutaw, Evergreen, Gadsden, Huntsville, Jasper, Mobile, Montgomery, Muscle Shoals, Russellville, Selma, Troy and Tuscaloosa.

at the school for the teachers, bus drivers, and all business personnel of Lexington.

The demonstration on teen-age behavior was given by the members that attended the leadership meeting in Florence, Mrs. Betty Thigpen and Ora Cottrell.

The May meeting will be at the home of Mrs. Laure Allen and will be a covered dish luncheon; each member is urged to be present.

B. P. (Junior) LOVELACE

To The Voters Throughout
Florence and Lauderdale County

DEAR FRIENDS:

Since announcing my candidacy for Tax Assessor of Lauderdale County, I have worked day and night in an effort to contact in person every voter so that I might ask you for your vote and support in the coming primary. Lauderdale County is a big county and no matter how hard I have tried, I am sure that I have been unable to see many of you—and this I deeply and sincerely regret.

May I ask you, however, that you take this message as a "personal visit to your home" and allow me here and now to ask most sincerely that you honor me with your vote in the Democratic Primary May 3. I want you to know that I will deeply appreciate it and promise that, if elected, I shall do all in my power to serve you efficiently and courteously keeping in mind always that the office of Tax Assessor is yours to give and mine only to administer for you.

Before announcing my candidacy, I gave careful consideration to my qualifications for this important office. I humbly feel that I am qualified to serve you. My training and experience have been in tax matters and my association with the office I seek has given me the knowledge I need in order that I might serve you immediately without the period of "learning" that otherwise might be necessary.

I WILL APPRECIATE BEING YOUR NEXT TAX ASSESSOR. May I most respectfully solicit your vote and active support in next Tuesday's primary.

Bible Comment:

**Things Were Not
Just What They
Seemed to Be**

Is it totally within the ability of man to see right from wrong? If we depend on our own emotions and short range reactions, we cannot.

How things may seem good but be harmful, or harmful and seem good is illustrated in this story of two farmers:

A farmer was complaining to his neighbor that his prize stallion had broken through the fence and run off.

His friend consoled him on his loss. But when he returned the following day he found the farmer smiling, and was told that the stallion had returned, bringing into the farm a group of wild horses.

The neighbor, this time, congratulated the farmer on his good fortune.

On the following day, though, he returned to find the farmer saddened again. One of the wild horses had kicked his son and broken his leg. Since this accident happened during harvest season, the neighbor did his best to console the farmer for his great loss.

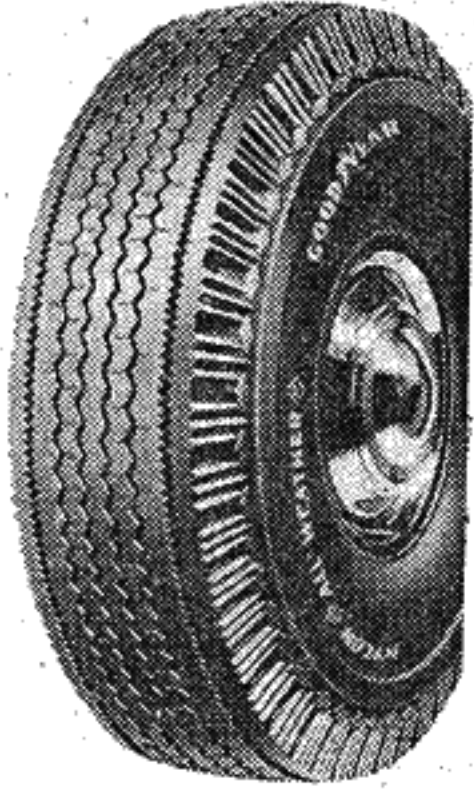

The next afternoon, however, when the neighbor called again, he found the farmer jubilant. The army had marched through that morning, conscripting young men for service in the war. Because of the broken leg, his son was passed by.

Things are not always what they seem. Man's complete knowledge of the value of events in his life is prohibited by his mortal vision.

God alone can judge the value of every happening which shapes our lives for good or worse.

APRIL is cancer drive month, and I'd like to urge you to fight this serious disease with a Check-up and a Check. The check is important, but just as important are regular physical check-ups for your entire family. If detected in time, cancer can be cured. Over 800,000 Americans have been saved because they saw the doctor before cancer got a head start. The American Cancer Society has listed these 7 danger signals which could mean cancer. If any of the danger signals persist for over two weeks, you should contact your doctor at once.

1. Unusual bleeding or discharge.
2. A lump or thickening in the breast or elsewhere.
3. A sore that does not heal.
4. Change in bowel or bladder habits.
5. Hoarseness or cough.
6. Change in a wart or mole.
7. Indigestion or difficulty in swallowing.

COUNTRY PLAYERS

LES CARROLL

Have you ever noticed at parties when the group gets to harmonizing, most of the singing is of songs of yesteryear? Somehow time adds enchantment to songs and they bring back many memories.

An LP, "Al Jolson—The World's Greatest Entertainer," is an album of such songs, and Al's singing of them will bring many happy memories. And "Harmonizing With the Mills Brothers" is another fine collection of old

songs that will give you that "sing-along feeling." In another album of old favorites, "Golden Award Songs," Crazy Otto's playing is of such infectious gaiety it can't help but brighten your day (all Decca).

For an exciting treasure chest of old songs, the three volumes of "American Favorite Ballads" by Pete Seeger, and the three volumes, "Guy Carawan Songs," are hard to beat. Packed into these recordings are most of the best of the Early American songs sung with such zest and with excellent five-string banjo and guitar picking, as to give one a

feeling of stepping back into time (all Folkways).

In the album, "At the Village Gate" and "Sing a Man," Brock Peters brings both a magnificent singing voice and the ability to portray songs as vividly as an artist painting on canvas (both United Artists). And for more good folk singing you will find the album, "The Cisco Special" by Cisco Houston (Vanguard) and "Hard Travelin'" by the Tarrriers (United Artists) exceptionally pleasing listening.

On the country side, "Hank Snow Sings Jimmie Rodgers' Songs," is an excellently sung album of some of Jimmie's most famous songs (RCA). And popular Rose Maddox has re-recorded 12 of her biggest hits, ranging from gay toe-tapping tunes to slow sorrowful ballads, in "The One Rose" (Capitol).

Fine singles releases are "The Old Lamplighter" (The Browns, RCA); "The World Keeps Turning" (Tony Douglas, D); "Accidentally on Purpose" (George Jones, Mercury); "Is It Wrong" (Webb Pierce, Decca); "Above and Beyond" (Buck Owens, Capitol); "Come on In" (Country Johnny Mathis, D); "Money, Marbles & Chalk" (Reno & Smiley, King); "Top Gun" (Benny Martin, Decca); "Whirlwind" (Doug Bragg, D); "When Jesus Beckons Me Home" (Stanley Bros. King); "That's All I Got From You" (James O'Gwynn, Mercury); and "Walkin' and Talkin'" (Hank Snow, RCA).

ECONOMY PROVED IN MOBILGAS RUN!

CORVAIR BY CHEVROLET DRIVE IT! GET OUR DEAL!!!!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U.S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

Practically flat floor... real foot room for the man in the middle. **Fold-down rear seat** gives 17.6 cu. ft. of extra storage space. **Four-wheel independent suspension** for a smoother, flatter ride. **Rear-engine traction**... that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

"A FAMILY THAT WORSHIPS TOGETHER — STAYS TOGETHER"

Building A New Life

Quite a thrill — building a new home! Day by day you watch it take shape. And somehow, you have the feeling that this new house will bring new life for you and your family.

But building a new life isn't as simple as building a new home. One just can't move out of the drab past into a sparkling future.

The life to which conscientious men and women aspire is built on foundations that cannot be laid in a week or two. Character, courage, conservation — these are concrete evidences of faithful years in the worship and service of God.

Today, where there are new houses there are new churches — and where there are old houses there are old churches. And through the portals of all the churches pass the millions of earnest families who are serious and happy about building a new life.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
