After hearing a report on the

financial condition of the Lauder-

dale county schools, by Superin-

tendent Allen Thornton, Thursday

afternoon, the Board of Education

postponed the opening of schools

from August 21 tentatively until

September 21, unless the Alabama

legislature reports out a school

Thornton pointed out that the

school system in Lauderdale Coun-

ty is \$238,000 in debt, this being

just \$50,000 short of the legal debt

"Until the Legislature acts we

Emphasizing that proration had

already taken a sizeable slice in

the school system's budget, Mr.

Thornton said, "We were expect-

ing \$75,000 in July to meet the

payroll and received only \$18,000."

He said he had asked that 10

teacher positions be cut but that

this would not now be necessary

since there had been enough res-

ignations. He complimented the

teachers and other employees and

mentioned that the cut in teacher

personnel would mean heavier

One of the activities that has

been dropped from the curriculum

is driver education and from some schools music will be eliminated.

Thornton said if schools should

open on August 21 money from the

state would not be received until

October 1. He said there appeared

of the legislature to add any ad-

ditional taxes for schools although

in the previous session it had ord-

ered pay raises for teachers then

failed to provide the means to

meet the costs. He further stated

that the 9.4 proration may run as

Board Chairman Harold S. May

FLORENCE, ALABAMA, THURSDAY, AUGUST 10, 1961

NO. 32

Passing | Parade By HAROLD S. MAY

· We watched history in the making Saturday afternoon as Saturn made its way around the south end of Wheeler Dam and, aboard its special barge "The Compromise," started its two-and-a-half weeks trip to Cape Canaveral. The great Saturn booster and cone comfortably filled the giant carrier as the powerful tug pushed it downstream at a rapid pace creating waves that spanked the bottom of our boat as we traveled in its wake and circled the big converted Navy barge. The two-story high Saturn well protected from the elements by a white plastic cover traveled in state - without any protecting escort, which we thought strange. Can you imagine such a precious cargo traveling down the Volga River without military protection? Neither can we. But here was an investment of millions traveling on its own without fear of interception.

• Everyone can give pleasure in some way. One person may do it by coming in a room, another by going out.

bama education have the schools such a low ebb. With millions being spent throughout the state on school construction—as the result of the \$100,000,000 bond issue -it is hard to explain to the uniformed that there is no money available for operation of our county schools and, as a result, the opening of the 1961-62 term must be delayed for at least one month, maybe longer, if the Legislature fails to pass a budget that includes adequate funds for our schools. Now, with better education for this sorely needed project. our youngsters being the crying need if we are to hold our place Alabama are. Louis Eckl, execuin the sun, we must curtail our tive editor of the Florence Times; operations because those at the Barret Shelton, publisher of the helm turn thumbs down on any Decatur Daily; Rankin Fite, Hammove that will provide funds nec- ilton; E. What a victory the little lady had won!

 Did you hear about the young lady whose boy friend was a well digger and every time he started on a new project she would send him a "get well" card? No? Well, it's a deep, dark story.

 The names of Muscle Shoals and Wilson Dam are attached to the names of many dozens of our business establishments and yet Florence, situated on the shore of ingham, with her daughter and Pickwick Lake, has made little use granddaughters, Mrs. Bray Dobbs, of the word "Pickwick" as the Martha and Katherine Dobbs, were designated name of any business. Just an idle thought, that's all.

 Dieters in this country were amazed when they heard that a man in England lost 100 pounds in one day - until they learned he was at a horse race.

 When we think about it there appears to be only three types of gossip: The shirt button type always popping off; the vacuum cleaner type - always picking up dirt; and the liniment type - always rubbing it in.

 A little girl becomes a young lady when she stops going through mud puddles and starts going around them.

· We must tell our own Pee Wee baseball player about the recent game played in Sedalia, Mo. In the top of the first inning, the Adcos Little League Club scored 45 runs off nine Sedalia Ice Company pitchers. The Sedalia Ice manager was pretty upset because his boys didn't get to bat. The game was called on account of darkness.

HOT FOOT-This youngster found that New York streets get hot in the summer sun. They just aren't conducive to running barefoot. Thus, he hotfooted it over to a fountain in Washington Square to find relief.

HOUSE BILL PROVIDES FOR COUNTY 5-MILL TAX

The House version of Senate permissive 5-mill tax measure as aid to Lauderdale County school funds has been passed and goes to the Senate for concurrence. The Senate bill passed without incident pre-

viously. Senator E. B. Haltom stated that the House bill would have the support of the Senate and it is certain that Gov. John Patterson will approve the measure. The bill, a constitutional amendment, will then be voted upon in the state at large and then be placed before the voters of rural Lauderdale County for their approval or disapproval. The bill, which provides five mills additional ad valorem tax, would be earmarked for schools and raise the county millage tax to 12-mills, the same as now paid by the City of Florence.

Teachers Elected schools.

The Board voted to discontinue the colored school at Cloverdale and the students will be transported to other schools.

HE MADE IT - Ray Weaver, 39, is sitting tight in his 16foot boat, circle, as it bobs in the rapids beneath Niagara Falls. He was trying to prove that the craft which he built was safe enough for rescue work. He landed ashore

safely.

Soviet Cosmonaut Gherman S. Titov returned to earth in good health Monday after orbiting the earth 17 times at the rate of 17,750 miles an hour in his spaceship. He landed after just 25 hours and 18 minutes of flight, equal to a round trip to the moon, scientists

His feat was heralded as "the prototype of interplanetary travel" and Soviet scientists immediately predicted that there would be another multi-orbital flight before October with possibly three menaboard including a scientist. After that, the moon.

Premier Nikita Khrushchev hailed Titov as the "dearest son" of the Soviet Union and told him he had passed from probationary to full member of the Communist Party "because every moment of your stay in space can be counted as years."

Doctors said Titov's feat demonstrated man's ability for sustained space flight since the cosmonaut survived 24 hours of weightlessness, ate three meals, broadcast his position, guided his craft manually and slept eight hours.

The capsule, Vostok II weighed 10,430 pounds as compared with this country's 4,500 pound craft that carried American astronauts Alan Shepard and Gus Grissom.

around the world.

Reports stated that Titov's welcome home was even more tumultuous than that accorded Gagarin. He was promoted from captain to major during his flight.

Watch That Money

Congress can do most of the things President Kennedy asks to combat the present world crisis but it should certainly retain control of the purse strings. If it doesn't there may come a time when regrets will be too late and congressional power will have waned beyond the point of recovery.

To give the President a five-year control over Foreign Aid Funds could be asking for trouble. Such a control transcends even the emergency powers a president might need or have, whether it be Mr. Kennedy or any president.

We have already witnessed the most shameful waste in this nation's history in the "back-door" spending policy of this government. Billions upon tens of billions have been "borrowed" from the treasury by government agencies during the past decade with no requirement or justification for review by congressional committees entrusted with public funds and who have constitutional jurisdiction over appro-

Congress is obligated, first and foremost, to protect its own constitutional controls and constituents should demand it . . . by letter, by vote, by every means at their command. If Congress doesn't keep a tight rein on the nation's money it will have yielded up its power and betrayed the people."

Let every man who values his own security and the future well-being of his children speak out against this country's rapid pitch toward financial ruin. It will not be the arms race with the Russians that will bankrupt us but our own blindness to the leaks at the "back-door."

Don't Underestimate the Reds

Napoleon had a theory that to understand the enemy was to defeat him. No general in history won as many battles. His failure to understand the "Iron Duke" cost him the battle of Waterloo and ended his career.

Which brings us to the present day and the need for understanding communism in order to combat it. Not too many of us do. We have an idea that it is a completely cruel, ruthless ideoology committed to the enslavement of mankind. But that is not quite all. We must look beneath the surface to see why this great world movement clicks.

Communism has leaders, efficient and dynamic, who are able to plan and plan well. They want nothing to interfere with their plans and while they rattle the saber they DO NOT WANT WAR. They create diversions in one place while they infiltrate another. We were outsmarted in Europe, Asia, Africa and in our own hemisphere. Almost before we knew it Cuba, only 80 miles from the mainland fell to the communists. Thousands have been converted to the cause and it is doubtful now if loyal Cubans have the strength to overthrow the Castro regime however well-planned their revolt

The whole thing boils down to this . . . the Western nations have not presented their case to the world as well or as efficiently as the communists. If they had the results would have been different.

So Mr. Kennedy does well to speak of negotiations with the Soviets over Berlin.

It is obvious that we cannot prevent the Soviets from making a peace treaty with East Germany. The West's hope is in preventing that treaty from giving away their access to West Berlin.

Soviet Satellite Spurs U.S. Effort

The National Aeronautics and Space Administration abashed though it may be at the Soviet Union's newest manned satellite triumph, is moving ahead with a program that could place a Mercury astronaut in orbit by December or January. An unmanned Mercury spacecraft is expected to be put into orbit within a month.

Plane Hijackers Indicted By U.S.

A U.S. Grand Jury indicted ex-convict Leon Bearden and his 16-year-old son Cody on six counts of violating the Federal laws when they hijacked a \$5 million jet airliner last Thursday and tried to make the pilot fly it to Cuba. They are in jail at El Paso, Tex., in lieu of bond totaling \$100,000 each.

Kennedy Calls For Hemispheric Effort

President Kennedy appealed in a message to a hemispheric economic session in Uruguay, Saturday, for an all-out joint effort of Marshall Plan size to lift Latin-American standards of living and counter outside threats. His call for a solid front provoked an atmosphere of excitement among the delegates.

Castro May Get Economic "Squeeze"

A major diplomatic and economic squeeze on Fidel Castro's Cuba appears to be in the making among Western Hemisphere nations. The United States is letting Latin America carry the ball in the renewed diplomatic battle with Cuba but offering plenty of encouragement from the sidelines.

Needy Students Helped in Cobb's Will

Ty Cobb, whose formal education ended after high school, left 25 per cent of his estate to the Ty Cobb Educational Fund, a trust established eight years ago to help needy students who were natives of Georgia to continue their education. The other 75 per cent was left in trust funds for his children and grandchildren.

Social Security Is Help To Millions Of People

Late News

 Soviet spaceman Gherman Titov returned to Moscow Wednesday for a hero's welcome, kissed his welcomers right and left and warned that if the "enemies of peace unleash another war, the Soviet Union has the wherewithal to crush the aggressor." He said he would be a faithful son of the communist party until the very end of his

 President Kennedy signed into law Tuesday a catch-all bill aimed at whittling down costly food surpluses and jacking up farm incomes. Missing from the bill was an administrationbacked provision to give the secretary authority, subject to veto by Congress and farmers voting in referenda, to draft quotaprice programs for individual commodities.

• The Alabama Supreme Court is expected to rule on a State Bar Association resolution outlawing "quickie" divorce practices as unethical. State attorneys who attempt to cash in on the lucrative "quickie" divorce trade in the state could be disbarred if the high court as expected approves the change in rules of conduct.

• The 15-power North Atlantic Treaty Organization unanimously endorsed an appeal by U. S. Secretary of State Dean Rusk for a show of force to meet Russia's threats in the Berlin crisis, Tuesday. He outlined to the permanent council of NATO the military buildup the Western leaders believe must be made within the next 60 days.

 A University of Alabama five-man committee began a hearing Wednesday that could bring about the dismissal of Dr. Charles E. Mandeville, head of the Physics Department. He is being investigated for "consistant failure to meet the generally accepted standards of professional responsibility for accuracy and appropriate restaint required of college and university faculty.

Local Boy Attends Wildlife Camp

Allen Carroll Of Reynolds Metals Exchange Speaker

Allen Carroll, assistant purchasing agent of Reynolds Metals Co., Alloys Plant, addressed the Exchange Club at Hotel Reeder Tuesday noon giving an interesting discussion of the various methods used in securing the vast amount of supplies needed for the operation of the big local industry. Harold May had charge of program arrangements and introduced the speaker.

Prior to Mr. Carroll's address, Allen Thornton, county superintendent of education at President S. Paul Lewis' request, gave a brief summary of the situation the schools of Lauderdale county find themselves in. He stated that the Gulf of Mexico, the Florida Straits. schools had practically reached their debt limit and there appeared to be no relief in sight as the Legislature apparently was not in any mood to provide the fnuds that had been taken from the school budgets of the past five years. He said that the opening date of the county schools had been postponed from Aug. 21 to Sept. 25 or an earlier date if the state would provide a budget on which the schools might count. So far the Legislature has not even brought a budget up for discussion.

Mr. Carroll outlined the steps that a purchasing agent must follow if he is to properly serve his company and said that it was his effort always to place his purchases with local vendors where possible. He stressed the part a purchasing agent or buyer has in on the river. He said the entire providing for a profitable operaduring his overseas duty and both tion of his company and showed "With little time alloted for his were later stationed at St. Nazaire. that if the purchasing agents of civilian agencies of the governprofit of \$1,000,000 would have They have one son, Dr. Harry M. accrued to the stockholders last

The National Aeronautics and Space Agency officials began the giant Saturn booster on its 2,200 mile journey to its launching pad at Cape Canaveral from Huntsville Saturday.

The nine-tenths mile overland trip around Wheeler Dam had been considered a major obstacle in the test flight plans for the Saturn moon rocket, however, the unique transfer was termed a "flawless" operation in by-passing the dam. A former Navy storage barge, the "Compromise," was converted to carry the Saturn to its destination after the collapse of the lock in June.

Two Weeks Journey

Karl Heimberg, director of NASA's test division, who is responsible for getting the Saturn from Huntsville to Cape Canaveral, said the journey will take approximately two weeks.

The journey, via the Tennessee, Ohio and Mississippi rivers, the and the Atlantic Ocean is expected to be uneventful, however, Heimberg said it was unknown how the "Compromise" would react when it hit the choppy waters of the Gulf, since the center of gravity is high on the barge.

The route taken across the Gulf will depend on the weather and whatever the Coast Guard recom-

TVA Praised

NASA's plans for the initial launching later this year were not delayed because of the rupture of the lock at Wheeler and are, in fact, one week ahead of the original schedule.

Heimburg praised the Tennessee Valley Authority for its quick reaction to the emergency when the lock collopsed and halted traffic operation had turned into real "unification" among military and

old road was widened, resurfaced and cleared of obstacles, an operation which was also necessary for the later movement of a 350-ton pressure vessel for an atomic reactor being shipped from Pittsburgh, Pa., to Oak Ridge, Tenn.

NASA officals had withheld public announcement of the Saturn's journey to prevent a crowd from hampering operations at Wheeler Dam. With the Saturn, the United

After enjoying his poem published in a recent GOODHOUSEKEEP-ING magazine, we are more than anxious to see his book. And our enthusiastic congratulations to this

UNTIL MORE NEWS COMES THROUGH THE SPILLWAY, IT'S GOODBYE FOR NOW!

Dr. Sharpton Is Speaker At FSC Commencement

Dr. Clarence T. Sharpton, vicepresident of student affairs at the University of Alabama, delivered Florence State College's Forty-Seventh Summer Commencement address, Friday night, when eighty - five graduates received Bachelor's and Master's degrees. Dr. Sharpton substituted for State Sen. Ryan de Graffenried of Tus-

Using as his topic, "The Growing Importance of Higher Education," Dr. Sharpton told the graduates there are many more rewards from obtaining a formal education than financial ones.

"This is an age of miracles in science and technology but there are things that science cannot be used for. Science with its miracles can be completely meaningless, depending upon the values and morals of the people who control them," he stated.

Dr. Sharpton declared the time has come when education, its administrators, its teachers and its students must demand excellence of themselves and each other. . "We must arouse in our youth the desire to excel. There is no place for compliance," he emphasized. When ending his address,

he charged the graduates, "Faith,

courage, and self-confidence will

allow us to meet the challenge that

lies before us."

THE FLORENCE HERALD, Florence, Alabama

Number College Heads Plead For Additional Funds

Norton Among Those Seeking Increase In School Appropriations

Dr. E. B. Norton, President of Florence State College, met with the House Ways and Means Committee last week when several university and college presidents discussed proration of educational school appropriations.

College presidents who attended the meeting included Dr. Ralph B. Draughon, of Auburn; Frank A. Rose, of the University of Alabama; Houston Cole of Jacksonville State College; D. P. Culp of Livingston; Frank Stewart of Troy State, and Dr. Norton. Students Turned Down

All warned that unless the State Legislature increases school appropriations next year, thousands of qualified youngsters would be denied a high education. The officials announced that already the Universities of Alabama and Auburn had turned down prospective students and that the smaller state colleges are "dangerously close to losing accreditation" because of overcrowded conditions, overworked faculty and underequipped facilities.

Dr. Rose said any further increase in student fees would deny a college education to many worthy future leaders in the state and that already, the University had turned away 1,000 students.

Faculty Needs More Pay Each president told the same story, the demand for education was increasing; more students sought college places, while faculty members quit for better paid jobs elsewhere, that state professors refused to work in the Alabama educational "wilderness."

It was stated that efforts to provide the type of education known to be necessary would be fruitless unless basic operating budgets Focus on America are strengthened. Unless an increase of approximately 12 per cent in the universities faculty salaries was financed, there would be the certainty of losing many able faculty members to other institutions who can and will pay more, a certainty which leads to mediocrity.

Smaller Colleges Need 10%

Dr. Norton said Alabama is 49th 6 Comedy Spotlight out of the 50 states in its number of college graduates, despite the 15 Comedy Spotlight fact the state has a greater demand for graduates than any other state. He said the 10 per cent increase in appropriations requested by Florence State College and the other smaller colleges was "the basic minimum we need."

Dr. Cole of Jacksonville warned that the increased student body at the college would reduce funds per student to \$341 next year \$9.00 below the minimum required for accreditation. The figure would be even lower if proration exceeded 9.4 per cent.

"I am frightened," Dr. Cole said, "of the danger of communism growing by the hour. The people must give us more money for schools."

Frank Stewart, fromer State Education Superintendent, now president of Troy State College, said at his school the student-professor ratio next year would be 30-1.

Sitting Down To Work Is Tiring

For years homemakers have been told that to save energy they should work sitting down.

cent more energy sitting, rather than standing, to wash dishes and iron, says Elizabeth Bryan, Extension Service home management

Telephone Talk

FORREST W. BRICE Your Telephone Manager

TRUE STORY-in Florida recently, two men and a woman got a real taste of salt water when their small fishing boat capsized. One man remained with the boat while the other man and the woman swam ashore. On shore, they looked about frantically for some way to con-

tact the Coast Guard, Finally, they spied an outdoor phone booth . . . borrowed a dime from a passerby . . . and in no time had summoned the Coast Guard to the rescue. Said the woman afterwards: "You'll never know what a joyous sight that telephone was!"

ODE TO LONG DISTANCE: Visit them when you can; Call them when you can't! The cost is small wherever you call.

OUTDOOR LIVING is becoming a real way-of-life here in the South, especially during these soft summer nights. And to make it even more pleasant . . . how about an extension phone for your patio? Wherever your patio is located, we can put a phone there . . . either the portable or the permanent type. The cost is small, the convenience great. For details, just call our business office, or ask any telephone serviceman.

WORD-OF-THE-WEEK DEPARTMENT: Its good to believe in yourself, but don't be too easily convinced!

WOLLEY SEGAP AGAIN! Seems that all during vacation season, we hear new stories of the Yellow Pages in action-helping someone in a strange town find a seafood restaurant . . . or an all-night bowling alley . . . or a drug store. Whenever you're away from home, for whatever

you need-remember to LOOK FIRST . . . IN THE YELLOW PAGES!

Jacksonburg

Dr. Culver Ellis, Lauderdale County Rabies Inspector, announces the schedule for the annual Rabies clinics for Florence

and Lauderdale County to begin Thursday, August 10th. The State Law reads that all dogs three months of age or older are subject to inoculation. Don't risk the danger of this dread disease simply because this county has been free of rabies. It can spread fast and no person should take a chance. Inoculation of all dogs is the only way to prevent it so have your dogs inoculated immediately.

NOTE: All persons owning dogs are asked to have them inoculated in cooperation with this program. Fee is \$1.00 at any scheduled stop in compliance with state law. The price at any veterinary hospital in the Tri-Cities area will remain at \$2.00.

veterinary nospital in the Tri-Cities area will remain	n at	\$2.00.

"A FAMILY THAT WORSHIPS TOGETHER - STAYS TOGETHER"

ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound nation. (4) For the sake of the Church

1-10 Isaiah 1-8 Tuesday Psalms Wednesday Proverbs 5-12 Thursday II Timothy 3 10-15 Friday. 7-26 4 27-42

The carefree may call this entertainment. The discouraged might call it life!

We feel often as though we're not getting anywhere. Many of us recall a long succession of up and downs-coming in a vicious circle.

To get anywhere, our life must have direction! Not just ambition, mind you. Ambition is simply a restless yearning to reach another plateau.

Direction is a course of forward progress,

It may lead to one's ambition . . . or beyond. And sometimes it bypasses an unworthy ambition to bring within our reach a worthy goal,

Set a time in your week when you will forego both entertainment and ambition-to insure for body, mind and soul a right direction. Begin next Sunday morning!

Alabama fails to produce enough seed largely because of the clover | head weevil. Also, a volume is needed for profitable operation. The price received by farmers has dropped more than 50 per cent during the past 10 years.

Forty to 50 per cent of the seed produced in the state comes from Autauga County. This is primarily due to the work of the Autauga County Re-seeding Crimson Clover Association, organized about 12 years ago.

Association members harvested about 450,000 pounds of seed this year from 2500 acres. Of this, 80 per cent was certified seed.

Use a serrated grapefruit knife and scrape fruit rinds to be used in cakes or puddings. There's no waste and no skinned fingers from grating. And there is only a small knife to rinse instead of a clogged grater to scrub.

If the cost of food had risen as: much during the past eight years | • COUNTY AGENT as the cost of other things, buyers would have paid \$70 million more for food.

Starts Sun., Aug. 13

Farm Facts

The production of U.S. hens exceeds 65 billion eggs a year. This is more than five times the output of their nearest rivals from the United Kingdom. And production per hen continues to climb. The rate was 152 eggs per year in 1945. It

was 206 per year in 1959. It's a good thing. Average civilian consumption in this country in 1960 was 334 eggs. Of the per person supply, about 29 eggs were broken commercially for use in manufactured products, including baked goods. Part of this "invisible" egg consumption is through dried egg solids bought by the Department of Agriculture for school lunch programs, etc.

More than 80% of our farms had chiekens and produced eggs 15 or 20 years ago. But times have changed. The 1959 Census of Agriculture revealed only 2.2 million farms with chickens and only half of these as selling eggs.

terial for commercial egg "pin-money" enterprise.

State Producing More Pulpwood Than Any Other

The value of the pulpwood harvest in Alabama during 1960 totaled \$60,394,000, a gain of 3 per cent over the figure for the 1959 crop, it was reported by H. J. Malsberger of Atlanta, general manager of the Southern Pulpwood Conservation Association.

Alabama's share in the production of raw material for the pulp and paper industry was part of another all-time high pulpwood harvest for the South as a whole. The 1960 12-state total was \$471,-020,000, up 4 per cent from the \$455,002,000 reported for 1959.

In the 12 Southern states, Alabama's pulpwood production was second only to Georgia which led the region for the 13th consecutive year with purchases of pulpwood valued at \$98,116,000 in 1960.

The South's pulpwood harvest grains, winter grazing crops, perlast year, Mr. Malsberger stressed, manent pastures, alfalfa, etc. This was not only 57 per cent of the office will supply all farmers with nation's total but also was greater the proper boxes and full instruc- than that of any other area of tions on taking these samples so comparable size in the world. they may be sent promptly to the

...taste the difference!

From the first sip, you'll be surprised at how much more delicious All-Jersey Milk tastes. You'll love its matchless flavor, because it's just naturally better...with its extra protein, extra calcium, and extra lactose to give you extra energy. Yes, you've got to give the Jersey credit for the milk with all the extras. And just think, All-Jersey costs no more than other milk! Why not try some?

more protein · CALCIUM PHOSPHORUS · LACTOSE

ENERGY UNITS than any natural milk of the same milk-fat content
