HOW PRIMITIVE CAN YOU GET?—Swedish artist Oyvind Fahlstrom glares at two of his paintings hanging in an exhibition in Stockholm. Reason for his irritation: painting on the right is actually his brush board which he used as a protective backing for his works. Exhibition officials mistakenly hung the board with his other creations.

The Passing Parade

1884 - 1959

By HAROLD S. MAY

It is understood that the traffic and route surveys conducted by a private engineering firm in the employ of the State Highway Department have been completed and it is hoped that an early report can be made. An effort to find the most feasible north-south route through Florence to alleviate the traffic problem was number one on the listing, however, other aids to improve the flow of traffic in others sections of the city were included in the survey. The question of a new bridge over the Tennessee River from the U.S. Government Reservation to a point in Florence was also explored. It is reported, with the entire program dedicated to solving the critical problem facing this growing community.

It's the little things, along with the expensive things in life—that a woman appreciates.

It's good to know that someone has done something about it. The Donut Institute in New York announced that the hole in the donut will be a quarter of an inch smaller in 1960. The shrinking of the donut hole, the institute said, was part of its campaign to fight inflation. (We didn't get it.)

Inflation is a period when a man goes broke in a prosperous kind of way.

Memphis Airport Commission chairman Herbert Moriarty, Sr., received a check for 16½ million dollars during the campaign to expand the airport facilities. The check was signed: "U. Tryon Gedditt."

A statistician claims that we have 35 million laws trying to enforce the Ten Commandments.

All too often, to make conversation, we find ourselves asking a foolish question—and then must sit patiently to beseem answers. Don't ever ask certain people how they feel—unless you have the time and patience to listen to the answer.

The old boy had just about gotten fed up with being questioned by his wife on every move he made. In discussing his problems with one of his cronies, he said that he well remembered that during his first 20 years his mother always asked, as he left the house, where he was going. "And, now," he said, "I can't leave the place without the wife asking the same question. No doubt, when the end comes, the mourners around my grave will be wondering, too."

Advertisement in a Los Angeles newspaper: "For Sale—Used television set, perfect condition. Owner was a little old lady who watched only Lawrence Welk."

A reference letter from a former employer was presented to a personnel manager, seeking to fill a vacancy. He studied the letter, then the applicant and then read the letter a second time. "Dear Sir," it said. "An honest difference between the bearer of this letter and the office manager over the length of coffee breaks led to the release of this young man from our employ."

There are a lot of television programs that would have a happier ending if we just had the energy to get up and turn it off at the mid-way point.

The professional man had passed the half-century mark by several summers and a few hard winters but every week or so he'd visit the perfume counter in a certain store, take a sniff at the various sample atomizers on display, select one and give himself a couple of squirts. Puzzled at this action, the saleslady one fine day pressed him for a reason. With a sly wink, he remarked: "Like to keep my wife guessing," and walked away.

Von Braun Threatens To Quit Post At Redstone

German-Born Scientist Calls For Bigger Role For Rocket Experts

BULLETIN

It was reported late Wednesday afternoon that President Eisenhower had decided to place German-born rocket expert Werner Von Braun and his Redstone team under the Civilian Space Agency and to remove all experimental space work from the Army in favor of the Air Force.

Close on the heels of General John B. Medaris' resignation this week as chief of the Army's missile program at Redstone Arsenal, Huntsville, was the threat of resignation from top rocket expert, German-born scientist Werner Von Braun.

Von Braun threatened Tuesday to resign as head of Redstone's rocket team unless he and his team of German scientists could be assigned a bigger role. Von Braun, always outspoken, said in effect recently the United States could not catch up with the Russians without spending more money.

In the face of the ticklish situation that has developed at Redstone Arsenal, Defense Secretary Neil McElroy, returning from a tour of the Far East, said "Von Braun can relax." McElroy added that the German team of rocket experts are an "important national asset" whose services will be "fully utilized" in the U.S. space program.

Following Von Braun's outspoken threat of resignation President Eisenhower summoned his top military and civilian science advisors to a White House conference to find ways and means of dealing with the country's missile and space programs.

Von Braun in Washington lashed out in a speech before the National Association of Food Chains, indicating that he did not approve of the government space policy in assigning to the Air Force the primary responsibility for developing military space vehicles.

"We must carry forward a long-range space program if we don't mean to abandon the heavens to the Reds," Von Braun said, adding, "If we continue at this leisurely pace we will have to pass through Russian customs when we land on the moon."

Huntsville Alarmed
Huntsville for several days has been alarmed at the prospect of the break-up of the Von Braun team and possible curtailment of operations at the huge, sprawling Redstone Arsenal. Mayor R. B. (Speck) Seary in commenting on the situation and General Medaris' resignation said, "It is just like somebody threw a wet blanket over the city. We had expected he was going to resign but we didn't expect it this soon. We all feel bad about it."

Phillip Olim Dies After Heart Attack; Burial Was Friday

Retired Merchant Known For Philanthropies, Civic and Religious Activities

Funeral services for Phillip Olim, 84, of 916 North Wood Avenue, Florence, who died at Coffee Memorial Hospital last Wednesday afternoon following a heart attack, were held at Morris-Elkins Chapel Friday at 2 p.m., with Dr. J. S. Gallinger, rabbi, Temple B'nai Israel, officiating. Burial followed in the Jewish cemetery, Sheffield.

Mr. Olim, widely known in this area and throughout the state for his many charitable and philanthropic activities, was a retired merchant, having engaged in the wholesale grocery and dry goods and notion business for many years and later, with his son-in-law, D. Max Levinson, in the founding and operation of the S.S.L. Stores in Florence and Tusculum. He retired from active business in 1945 and since gave generously of his time and means in the service of the community, his religious connections and his fellowmen.

Coming to this country from his native Russia when a youth, Mr. Olim settled in South Alabama where he was engaged in business. After his marriage to Miss Ray Kreisman of Florence in 1899, he moved to the Tri-Cities and began his long and eventful business career locally. Mrs. Olim died in 1946.

He served as president of the Tri-Cities Jewish Congregation as well as in other offices during his 60 years of membership and for more than 50 years he was treasurer of Temple B'nai Israel, which position he held at the time of his death. He served as chairman of the building committee during the construction of the modern edifice now occupied by the congregation at Hawthorne and Prospect streets, having been one of those principally responsible for its erection.

Mr. Olim was permanent chairman of the Tri-Cities Jewish Federated Charities; a member of the Florence Rotary Club, the Scottish Rites bodies and the Shrine; was a member of the Elks Club and the Florence Golf and Country Club, of which he served two terms as president. His outstanding services to things worthwhile are recorded in "Who's Who in American Jewry."

Affectionately known throughout the Tri-Cities for his kindly manner and sympathetic consideration for all whom he might be able to aid, Mr. Olim was a modest man who sought no praise nor commendation for his efforts to serve his friends and neighbors, as he went about doing good.

He is survived by four daughters, Mrs. D. Max Levinson, Miss Charlotte Olim, both of Florence; Mrs. M. S. Simon, Memphis, Tenn.; and Mrs. Walter Singerman, Altona, Pa.; a brother, A. Olim of Sheffield; four grandchildren and 10 great grandchildren.

Five Arrested In Recent Breakins

Sheriff's Men Find Clothing, Other Loot In Making Arrests

It was revealed early Monday by Lauderdale County Sheriff Roy L. Call that a large amount of stolen groceries and clothing has been recovered and five men arrested in connection with the burglarizing of three Lauderdale County business establishments during the past three days.

Notable Boatwright, 31, Rt. 1, Sheffield, Herndon, 30, 706 East Second Street, Sheffield, Grady Pitts, 40, Rt. 1, Muscle Shoals City, Robert Evans, 28, Second Street, Sheffield and Ralph Pitts, 34, Star Rt. 10, Florence, were arrested in connection with the burglarizing of Dewey Wright's Grocery No. 2 on the Waterloo Road.

Ralph and Grady Pitts are also charged in connection with the burglarizing of Jerry Doby's Grocery, Rt. 2, Florence on the Gunwaleford Road Saturday night and with another breakin Saturday night at Little Joe's Fish Market, in Florence.

The officers first clue in the case came when three witnesses noticed two men running from Doby's Store at about 11 p.m. Saturday. The pair got into a closed truck and drove away.

The witnesses, not able to get the tag number, gave a description of the truck. It was found later backed up to a smoke house at Evie Pitts' home, 16 miles west of Florence. Mrs. Pitts' husband is the brother to the two arrested men, it was reported.

The men were in the process of unloading the truck at the time of the arrest. All of the men were there except Evans who was later found to be implicated in the burglary of Wright's Store.

Attorney General Seeks Injunction In Steel Row

Industry's Offer Rejected By USW; President Eisenhower Takes Action

It was learned from reliable sources Wednesday that the U.S. Army Corps of Engineers had abandoned efforts to lease the Muscle Shoals Phosphate Development at Wilson Dam to the Monsanto Chemical Company.

It was understood that the Monsanto Company had been negotiating with the Army Corps of Engineers since last March on the possibility of leasing the Muscle Shoals Phosphate Works.

Baby D, the last survivor of quintuplets, died at 6:45 a. m. Wednesday at the Lackland Air Force Base, (Texas) hospital, where the mother, Mrs. Charles G. Hannan, gave birth Tuesday to the five toy-like baby girls, four of whom died within 9½ hours after birth. Baby D, the fourth born, weighed 1 pound and 13 ounces. Baby A, the first born weighed 1 pound, 9 ounces; Baby B, 1 pound 5½ ounces; Baby C, 1 pound 8½ ounces and Baby E, the same as Baby D. The father is a lieutenant in the Air Force and is stationed at Lackland Air Force Base. The Hannans are the parents of two boys.

It was announced Wednesday by a prominent French newspaper that Princess Margaret of Britain would announce her engagement to John Turner, a handsome Canadian lawyer, with the queen's approval despite differences in their religion. Court circles and newspaper editors in London denounced the report as "rubbish" and "nonsense." They stressed the fact that she is a Roman Catholic and the princess is a member of the Church of England. Turner monopolized her time during her trip to Canada in July, 1958. They are both 29 years old.

Governor John Patterson Wednesday still appeared hopeful that a good small loan law would be passed but would not say what strategy the administration would use in effecting this. He told newsmen that until he could confer with Senate leaders he could not say whether the administration would continue its filibuster against a substitute bill introduced in the Senate or not. The governor said he had been working to line up support for the Gilchrist bill.

Senator Estes Kefauver of Tennessee said an investigation by the Senate judiciary sub-committee has convinced him there is room for a settlement of the strike that would not be inflationary.

Under the Taft-Hartley Law the president can seek an injunction if he feels the strike imperils the nation's health, welfare or safety.

The two big issues at stake in the current steel strike are the union's demand for a wage increase and industry's demands for changes in working rules that would enable it to save money.

Steelworkers were said to have been earning an average of \$3.11 an hour before the strike. They are seeking wage increase and other benefits valued at 20 cents an hour under a two-year pact. Industry claimed the package would cost 32.4 cents and hour. The industry made a counter proposal of a 33-cent package for a three-year period according to the fact-finding panel. The union valued the industry's offer at 24 cents. The union also opposed the industry's demand for changes in working rules.

Appointment of Mrs. Clarice F. Batson as a crew leader for the 1959 Census of Agriculture is announced by Field Director Meredith A. Bass of the Census Bureau's regional office at New Orleans.

Waiting For Bus Children Dash Into Auto's Path

Sharon Newbury, 7, daughter of Mr. and Mrs. Glenn Newbury, Florence, Rt. 2, and Theresa Gave Womble, 7, daughter of Mr. and Mrs. R. C. Womble, Florence, Rt. 2, were both dead on arrival at Eliza Coffee Memorial Hospital after they were struck by an automobile at 7:30 Wednesday morning. The automobile was being driven by Roland Ralph Rhodes, Rt. 2, Florence, who was a great uncle of the Womble child.

It was reported that the accident occurred in front of the Newbury home on the Waterloo Road when the two girls ran across the roadway directly into the path of the approaching car. The girls were among a group of children waiting for the school bus.

Rhodes applied the brakes when he saw the girls, but the automobile skidded some 25 feet before the impact. The vehicle carried the bodies about 100 feet before it ran off the side of the road into a ditch, into which the bodies fell.

The victims were rushed to ECM Hospital but were pronounced dead on arrival. It was reported by hospital attendants that the bodies were crushed badly.

School books and papers which the girls were carrying were scattered about the scene of the accident for some distance it was stated.

This accident gave Lauderdale County a total of 20 traffic deaths on roadways plus three on private property this year.

Batson Elected As Grand Lodge Tiler

Florence Druggist Long Prominent In Elksdom To Hold National Post

Florence will soon have a national officer in Elksdom in the person of Adin Batson, announcement having been made recently that the prominent Florence druggist will become Grand Tiler at the July 1960 Elks National Convention in Dallas, Texas.

Since his term in 1949 as exalted ruler of the Florence Elks Lodge, Mr. Batson has attended thirteen annual Grand Lodge meetings, becoming not only well known in his community and state, but nationally as well. He is also a past state president and past district deputy.

In speaking of the great work done by Elks throughout the nation, Mr. Batson pointed out the fact that the Elks led the nation in charitable and patriotic programs with an average donation of \$5 per member. The Florence Lodge has a record of \$25 per member, he said.

County Ahead Of State Bond Sales

State Chairman Thad Holt announced today that Alabama has reached 68.5% of the year's goal of \$48 million in sales of E and H Savings Bonds.

Chairman Holt calls attention to the recent improvements in Savings Bonds. Interest raised to 3-5/4% on Series E and H Bonds, purchased after June 1, 1959, maturity period on Series E Bonds now only 7 years and 9 months. BONDS PURCHASED PRIOR TO JUNE 1, 1959, EARN AT LEAST 1 1/2% MORE THAN BEFORE WHEN HELD TO MATURITY.

Sales during the month of September bring Lauderdale County to \$49,604 for the first nine months—or 83.8% of this year's goal of \$59,200, announced today by Fred Long, County Chairman.

Have You Had Your Soil Tested?

The Soil Fertility Program inaugurated in Lauderdale County holds promise of not only raising the standard of living in this area but of creating greater permanent prosperity than anything that has been done to date.

It has been conservatively estimated, that if soil testing is generally accepted by the farmers of Lauderdale County as a routine part of their farming program, substantially more than a million dollars annually can be added to the county's farm income. Naturally this would be reflected in better homes, better living, and best of all, a brighter future.

This newspaper heartily urges 100 per cent cooperation with the County Agent's office and others interested in the soil testing program. Information is free for the asking.

Fertilizing can be expensive unless the soil is tested. Mr. Farmer, why spend money on a guess? Take the guesswork out of farming by having your fields tested. Then you will know exactly WHAT fertilizer to use and HOW MUCH.

Fifty Per Cent Sales Tax

The American people, in 20 states, are paying over 50 per cent tax on an essential commodity they are using every day. It is not too hard to guess that this important product is gasoline. Lawmakers in both the states and the federal government levied this tax or permitted it to be levied so that the nation-wide tax average on gasoline is now 47 per cent. The average state tax is six cents and the federal government four.

The federal government's recent hike of a cent a gallon is to help defray the cost of a super trans-continental highway system. In the states where matching federal aid to roads is mandatory in order to receive an allocation of federal monies, taxes vary according to needs. In any case the consumer pays the total tax on a commodity that has risen in price only six per cent since 1949 as against a general rise in retail prices of other commodities of some 21 per cent.

Since 1949 it is interesting to note that there have been 58 separate gasoline tax increases in 41 states plus two federal jumps. This is many times the tax rate on mink coats, diamonds and a host of other luxuries.

However as long as the people will sit apathetically by and do nothing to take their lawmakers to task about such taxes as the gasoline tax they can expect such treatment.

Only the public can remedy such matters.

They Can Be Prevented

Reproduced herewith is part of a report from Floyd H. Mann, director of public safety for the State of Alabama. While figures do not usually make interesting reading the statistics on this report show a disgraceful situation in the Florence area with respect to traffic accidents and one that the people should take steps to remedy.

We say, "the people" because it is doubtful if twice as many highway patrolmen in the area could have prevented the accidents from happening. It is going to be up to all of us to take extra care in driving and avoid being the cause of preventable accidents. This newspaper believes that all accidents are preventable because the reason for all accidents stems from human error, even the mechanical failures that cause a very small portion of traffic and highway mishaps.

Most of these accidents were caused by these six traffic law violations: (1) Excessive speed; (2) Driving on the wrong side of the road; (3) Failure to grant right of way; (4) Driving under the influence of alcohol; (5) Following too closely; (6) Failure to signal.

Of these 51 rural traffic accidents investigated by the Highway Patrol in the Florence Post during September, there were 13 one-vehicle accidents, 38 two-vehicle accidents, 1 three-vehicle accident, and one listed as other.

Lions Ready For Fray With Troy

Homecoming Tickets On Sale; Opponent To Be Middle Tennessee

The Florence State footballers have gone through two days of rugged preparations for their upcoming battle with Troy State Red Wave this Saturday night in Troy. The Lions fought highly rated Southeastern Louisiana on even terms last week before going down 28-21. The FSC's were leading 21-20 with 5:34 remaining in the game. Southeastern connected with a 73-yard pass play that spelled the defeat.

Florence will be a heavy favorite as they meet Troy. The Red Wave have won only one game, a 7-6 win over Livingston, while losing four this year.

Coach Hal Self stated earlier this week that he expects Troy to pass 50 per cent of the time and the Florence practice sessions this week have been geared to stop the Troy passing.

Homecoming

Tickets for the Florence State College Homecoming game with Middle Tennessee have gone on sale a week early due to heavy demand.

A sellout crowd is expected for the homecoming game on October 31 which promises to be one of the best of the season.

Middle Tennessee is undefeated in four games and last week defeated the University of Chattanooga 28-0.

Tickets can be purchased at the following firms: Hibbet and Sons Sporting Goods and Anderson's News and Gift Shop in Florence.

Editor: On the occasion of the observance of National Newspaper Week we would like to congratulate you and your staff on the excellent service rendered to the community by your paper.

Too often we take for granted those services that we have grown accustomed to having at our finger tips and do not realize the effort and integrity that go into the rendering of the service. Such is true of our newspaper. So it is appropriate that this week be set aside as National Newspaper Week to remind us of the debt we owe to those who work to keep us informed and up-to-date.

Again congratulations on your many years of excellent service and best wishes for the continuation of this service to our communities.

Yours very truly,

General George Marshall Dies

General George Catlett Marshall, who directed the operation of World War II and instituted the famous Marshall Plan, died at Walter Reed Hospital in Washington Friday after a long illness. He was 78. President Eisenhower spoke highly of Marshall's great record as a soldier-statesman, saying "Marshall's death is cause for profound grief throughout the United States." The General served as Army Chief of Staff during World War II and as secretary of state following the war.

Mrs. Anderson Acquitted of Charges

A Federal Court Friday declared Mrs. Kathryn Anderson innocent of charges that she robbed two Homewood savings and loan association branches. Jurors deliberated for less than two hours. On May 29, 1958, she was arrested by FBI agents and charged with the Feb. 28, 1958 armed robbery of City Federal Savings and Loan Assn. and the May 22, 1958, Jefferson Federal Savings and Loan Assn. holdup.

TV Give Aways Eliminated

Frank Stanton, president of the Columbia Broadcasting System, announced Saturday, Oct. 17, that all big-money give-away shows will be eliminated from his television network. At a meeting in New Orleans of the Radio Television News Directors Assn., he said, "Millions of Americans were duped by what went on behind the scenes during the production of many of these quiz shows. I can therefore say that CBS will no longer permit its network facilities to be used for such programs." Home Ceremony Marks Davis-Richey Nuptials

An ivy-entwined arch was flanked by basket arrangements of white gladioli to fashion an altar background in the home of Mr. and Mrs. Richard Edward Davis, 1706 Chisholm Road, for the wedding of their daughter, Sandra Louise, and Howard Richey, son of Mr. and Mrs. Richard Hobson Richey, all of Florence, on Saturday afternoon, October seventeenth.

The Reverend Markie L. Butler, minister of Central Baptist church, read the two o'clock vows.

The bride, given in marriage by her father, chose for the occasion of her wedding a gown of white lace posed over taffeta, detailed with long, tapering sleeves and a big side bow with streamers extending to the waist-length hemline. Her shoulder-length veil was caught to a crown of white velvet and atop her white Bible was a cluster of sweetheart rosebuds encircled by white carnations and a showered by lovers' knots of white satin ribbons. A single strand of pearls was her only ornament.

Mrs. Lee Howard Thomas was the bride's only attendant. She wore pink lace with matching headpiece and her bouquet was fashioned of blue and white feathered carnations.

Jesse Payne served Mr. Richey as best man.

Mrs. Davis, mother of the bride, wore a sheath of azure blue wool and Mrs. Richey, the bridegroom's mother, was attired in a Fall suit of grey wool. A cluster of white carnations was at the shoulder of each.

Immediately after the ceremony, Mr. and Mrs. Davis were reception hosts and assisting them were Mrs. Clyde Bohannon and Mrs. C. H. Hunt, aunts of the bride, Mrs. Paul Owen and Mrs. Edward A. Davis, cousin and sister-in-law of the bride, respectively.

Before leaving for a brief wedding trip, Mrs. Richey changed to a beige suit with brown fur trim with which she wore a small pink hat and brown accessories. The pink roses from her bouquet fashioned her corsage.

Now returned, the couple is at home in Florence.

RAILROAD FEATHERBEDDING:

\$500,000,000 LOSS

TO THE NATION—INCLUDING YOU—EVERY YEAR

Featherbedding on the railroads — pay for work not done or not needed — is costing the American people the shocking total of more than \$500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman—even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is a fair day's work for a fair day's pay.

Infrequent Visitors Say Area Changed

Mrs. Annie Cunningham and her brother, William Lee Gray, both former residents of Florence, were recent visitors to this area. Being very infrequent visitors, Mrs. Cunningham and Mr. Gray found that the Tri-Cities had changed considerably since their last visit, some 64 and 40 years ago, respectively.

Mrs. Cunningham, 86, left for Oklahoma in 1895 in answer to a call to teach school in Ardmore. She had previously graduated from State Normal College (Florence State). A few years later, her family followed her to Oklahoma.

The underlying purpose of their visit was to revive old interests and memories. This visit made the second one that Mr. Gray had made to the area since the family moved in 1898. He was here around 1919. Mr. Gray showed much enthusiasm over the many changes and stated, "It's a pity that we didn't stay here."

Mrs. Cunningham's first impression was one of sadness over the fact that she had expected to find all her friends still here, but instead, she found that most of them were gone. As she said about the Tri-Cities area as a whole, "The activity and wealth I had not expected. An entire revolution has taken place."

Their father was Leander F. Gray, the brother of John Gray, who was the father of Duncan and Dr. E. W. Gray of Florence. The brothers, Leander and John, married sisters, Mary and Carolyn Young. This made the children of both marriages double-first cousins.

The living relatives in this area are Mrs. J. W. Fowler, Mrs. Mary Mosterson, and Albert W. Gray, who are first cousins to the visitors on Mrs. Leander Gray's side of the family; Emmett Gray and his sister, Mrs. Norma Thornton, who are cousins on Mr. Gray's side.

William Gray is driving his sister Annie back to her home in Oklahoma and will return to his home in Texas.

Torch Relay Part U - A Homecoming

Sparkling the traditional University of Alabama bonfire during Homecoming eve ceremonies on Friday, October 30, will be torch-bearing marathon runners coming in from Columbus, Miss., some 90 miles distant, where the torches will have been lighted at 7 a. m. that morning.

Mr. Henry Pratt, Columbus, Miss., only living member of the original (1892) Crimson Tide football team will touch the flame to the torch, and 12 University runners will relay the emblematic torch to Tuscaloosa.

On Saturday, October 31, the 1959 edition of the Crimson Tide meets Mississippi State in Denny Stadium for the annual Homecoming game.

A Tennessee test showed that raising crossbred pigs was more profitable than straightbreds; productive purebreds, however, formed the base for the effective crossbreeding program.

Scholarship Offerings Announced By College

A meeting was called on Tuesday, Oct. 13, by Dean Turner W. Allen, of Florence State juniors and seniors who are interested in opportunities to apply for graduate fellowships, assistantships, and other forms of aid for further study, together with the faculty committee in charge. These are Mrs. Shannon Lentz, Associate Librarian; Dr. E. L. Rhodes, English; Dr. Klem Alexander, Science; and Dr. William H. Waite, Psychology.

Applications for most of these scholarships should be made in the autumn according to Mrs. Lentz, chairman.

Marshall Scholarships fall into this category with an October 31 deadline. As a gesture of thanks for Marshall Aid, the British Government established twelve awards to enable American graduates, men or women, to study at British universities.

Rotary International Foundation Fellowships, also offering out-of-country experience, was offered Florence State students in alternate years.

March 15 is the deadline for teaching and research assistantships at the University of Alaska in Fairbanks.

The Woodrow Wilson Foundation Fellowship and the Danforth Foundation are among those most coveted, and allow the recipient

the school of his choice.

Ten FSC graduates of 1959 achieved awards and are working toward higher degrees at University of Miami, Florida State, Kent in Ohio, University of Tennessee, Auburn, University of Missouri, and University of Mississippi at Oxford.

Some of the scholarships are offered for people who have already had teaching experience, but the primary purpose of the FSC program is for the students here.

Rogers High Sets Alumni Banquet

Rogers High School has set the date for its annual alumni banquet for Nov. 6, at 6 p.m. in the school cafeteria.

The banquet will precede the homecoming football game which will begin at 7:30 p.m.

Requests for reservations should be mailed to Rogers High School, Rt. 1, Florence. These requests must be in by Nov. 3.

Sunday Has Been Designated Wesley Foundation Day

October 25 has been set as Wesley Foundation Day throughout the North Alabama Conference of the Methodist Church.

The purpose of this day is to make all the churches in the conference aware of the proposals

made by the 1956 General Conference which voted two major emphases for the 1956-60 Quadrennium.

Higher education and the local church were these two major emphases. Through such a plan as this, the local churches in the North Alabama Conference will provide a minimum of \$1 per member for colleges and \$30 per member for Wesley Foundations.

It was recently pointed out by local postmasters that deliberate damage or destruction of patron mail boxes is a violation of federal law.

Recent complaints received by the postmaster include such violations as tearing off name plates, shooting onto boxes, exploding firecrackers in boxes, and knocking down mail boxes.

Postmasters are appealing to parents to warn their children not to damage these boxes.

OUR NEWSPAPERS

and our

FREEDOM

William S. Hawkins

Because truth is a basic safeguard of democracy, our Founding Fathers insisted on freedom of the press. They included this freedom in the very first Article of the Bill of Rights. They knew that, given the facts—given truth—Americans could be counted on to make the right decisions. A vital part of our nation's heritage, freedom of the press is perhaps more important today than ever before. The dissemination of truth by a free press is one of our greatest bulwarks against communism and, in fact, against all aggression, anywhere. The world looks to the United States as the leader in the battle for truth and democracy. And the United States looks to its newspapers for the dissemination of truth.

The twentieth annual observance of National Newspaper Week is observed October 15th through October 21st. At this time the entire nation will pay tribute to the free press. As patriotic Americans, Elks everywhere—in lodges throughout the Order—will join in saluting the newspapers for their part in guarding our liberty.

This is a deserved recognition of a noble profession, and at the same time National Newspaper Week affords our fraternity the opportunity to tell again the great story of Elkdom. Through cooperation with the newspapers and enthusiastic observance of the occasion, our lodges can inform the public of the charitable, benevolent and patriotic work of the B. P. O. E. Through the years, it has been found that local newspapers are among the most effective means of communicating to the public both the activities and the goals of our lodges—our accomplishments and our ideals.

In order that the newspapers of our nation can completely and accurately disseminate the news of the Order of Elks and of its accomplishments, it is imperative that we cooperate by making that news immediately and accurately available to the proper personnel. The public—as well as our own members—is entitled to know, through the columns of the newspapers, the good that we do. It is newsworthy.

Elkdom owes an incalculable debt of gratitude to this nation's press for the recognition the fraternity has received in thousands of newspapers. By according us this type of publicity, the newspapers have fostered the Order's growth in size and prestige, and have helped us to realize many of our goals. It is fitting that we use this occasion to repay kindness with kindness and honor the press that honors us.

To stress the importance and patriotic significance of Newspaper Week, I would like to quote a statement made by Dr. Howard R. Long of Southern Illinois University, addressing Chester, Ill., Lodge at last year's observance.

"What is happening or has happened in the Far East," said Dr. Long, "will happen in America unless the people take enough interest in their own rights of freedom of information."

Let us make this salute to our newspapers another example of how Patriotic Fraternalism fights for Freedom!

SOME AMERICAN REFORMS POPULAR

Dr. Lawrence Olson, who has studied Japan for many years, said last week at the University of Alabama: "When the Americans occupied Japan after World War II they swept through the country like a broom."

Some American-instituted re-

forms which have become successful and popular, according to Olson, are the emancipation of women, including voting and legal rights, and a new system of land tenure. Another not so popular, he said, was an attempted change in the Japanese educational system.

"A FAMILY THAT WORSHIPS TOGETHER — STAYS TOGETHER"

CROSSROADS

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Proverbs	15	19
Monday	Deuteronomy	19	1-2
Tuesday	Psalm	57	5-6
Wednesday	Psalm	119	1-2
Thursday	1 Timothy	1	8-9
Friday	Hebrews	10	22-23
Saturday	Mark	1	15-18

Here's what happens when four super-highways meet—a far cry from that simple "plus mark" we used to call an intersection!

Life is becoming more complex, isn't it? No longer is it simply a matter of finding the right road. Today you can't even get on the right road until you find the right approach. And you had better be mighty sure of the direction you want to go, or you'll find yourself speeding away from your destination on a turnpike that permits no U-turn.

As life has become more complex, the value of a deep and abiding religious conviction has become more evident. Against a background of confusion and uncertainty the confident assurance of Christian faith is sharply silhouetted.

And the millions who have turned to the Church for truth and guidance have made a thrilling discovery. The Way of Christ is still just as clear, direct, and inspiring as it was to those who heard it first by the Galilean road.

Farmers Urged To Have Soil Tested

Wagnon Hopes To Send 3000 Samples To Lab At Auburn From County

Nothing is more important to Lauderdale County farmers than having their soil tested, according to county agent L. T. Wagnon, whose office conducted soil demonstrations at a number of points in the county on Monday, Tuesday and Wednesday.

Instruction on how to take soil samples are also obtainable from vocational agriculture instructors in the county who also furnish containers and the necessary forms. The Soil Fertility Program inaugurated last Tuesday night at a meeting at Underwood School should be instrumental in securing at least 3000 soil samples from Lauderdale County farms, Mr. Wagnon said, adding that each farmer having tests made should remember that one sample is free and that transportation to the laboratory at Auburn will be paid up to the deadline of December 15. Six hundred free samples were made possible by the following contributors to the testing program:

First National Bank, State National Bank, Farmers and Merchants Bank, Waterloo; Bank of Lexington, Farmers Bank of Anderson, East Lauderdale Banking Company, Rogersville; Buffers Gin Company, Oakland Gin Company, Florence Seed and Feed Company, Smith Seed and Feed Company, R. H. Belew, Otto Williams, Roberson Warehouse Company, Rogersville; International Mineral and Chemical Corporation, Kiwanis Club of North Florence, E. A. Pettus, Lexington; Lauderdale

"Farmers, cotton merchants and brokers, cotton exchanges, banks, warehousemen and nearly everybody handling cotton are finding the 'A' purchase program utterly unsatisfactory, cumbersome and practically unworkable. The cost of moving a bale of cotton from farmer to mill has been seriously widened because of this new program." This statement came this week from S. M. McAshan, Jr., president of the American Cotton Shippers Association, and was evidenced by the stacks of forms on desks of just about everybody in the cotton business ... now that cotton is moving, the red tape is proving overwhelming ... what was once the most efficient marketing system in the world has become a cumbersome, expensive threat to cotton ... the present law must be changed or the entire cotton marketing system will break down and will no longer be available in future years for the efficient movement of the farmers' cotton to the spinning mills of the world ... cotton has enough problems without being bound by additional red tape ... despite the fact that the cotton crop this year is one of plenty, cotton merchants are finding raw cotton in short available supply to fill their commitments to textile mills in this country and abroad because cotton bought from CCC has not been delivered in time to meet contracts because of red tape ... this is another example of the disruption of normal patterns of private trading which has cost cotton merchants millions of dollars.

Cottonseed Plan

If the cottonseed market price drops below the support price (and the market price is now about equal to the average support rate of \$38 per ton) the government has a plan to turn the seed into oil ... the government-owned seed would be sold to crushers at support rate ... the oil would be sold back to the government on a competitive bid basis with the crusher keeping the meal and other by-products.

New Estimate

Estimate of the new crop issued by the USDA was up by 14,000 bales ... this was the third USDA estimate of the season and was based on October 1 conditions ... total crop set at 14.7 million bales.

Plenty Bale Ties

Despite the steel strike there seems to be plenty of bale ties available ... a survey indicates that there are enough ties now to last through November ... one steel company that makes the ties isn't on strike ... with a 14.7 million bale crop, more than 126 million pounds of steel will be consumed for ties.

Now Is Time To Plant Strawberries

Order strawberry plants now while the best choice in variety and quality is available.

Start planting in late October or as soon as fall rains put some moisture in the soil, recommends API Extension Horticulturist John Bagby. Be sure that the plants you use are disease-free and, preferably, from a southern source.

Bagby recommends the following varieties for commercial growers and home gardeners in South Alabama: Klommore, Blakemore, Missionary, and Florida 90. Growers in Central Alabama should plant Klommore, Blakemore, Dixieland, and Albritton.

According to the horticulturist, Blakemore, Tennessee Beauty, Dixieland, and Albritton are best for North Alabama counties. He adds that everbearing varieties seldom do well in the state.

Cleaner Nest Eggs Can Be Produced

"Let's produce clean eggs in Alabama this winter," urges API Extension Poultry Specialist Jim Hubbard.

In the winter when moisture is high it is harder to keep floor litter and nesting material clean. So start building up floor litter in the laying house this fall.

Then when the letter gets dirty Hubbard recommends adding a couple of inches of new, clean litter. Do this again in early winter. According to the specialist, the litter should be six to eight inches deep by cold weather.

For cleaner eggs, litter can be kept dry by proper ventilation and stirring. Be sure to check the nests and keep them filled with a sufficient amount of clean, dry nesting material.

Sanitation and disease control are principal keys to success in any livestock program.

Snacking can be made helpful instead of harmful by drinking milk shakes instead of cola drinks, eating peanut butter sandwiches rather than potato chips.

Clean and peel fruits and vegetables on old newspaper; roll it up and toss into the garbage can, and there's no mess to clean out of the sink.

THE ELECTRICITY DEPARTMENT LISTS THE FOLLOWING INTERRUPTIONS FOR SATURDAY MORNING, OCTOBER 24, 1959, IF THE WEATHER IS FAVORABLE FOR WORKING:

There will be an electrical interruption of approximately two (2) hours on all rural lines on and feeding off of Old Jackson Highway, from 1 mile North of St. Florian (St. Florian Substation) to State line including Greenhill, from 12:01 Midnight to 2:01 A.M. Saturday morning October 24, 1959.

There will be an electrical interruption of approximately two (2) hours on all rural lines on and feeding off of Highway 64 East of Lexington and 5 miles South of Anderson on the Anderson-Rogersville Highway and the Pulaski Highway including the communities of Anderson, Grassy, Powell, and Bethel from 12:01 Midnight to 2:01 A.M. Saturday morning October 24, 1959.

These interruptions are for the installation of new equipment.

Ag Committee To Aid Small Farmer

The Agriculture Committee, under the chairmanship of Howard Jones, has placed an order for 52 calves with a Wisconsin supplier. The calves are to be delivered in Florence on October 29, and will fill orders from small Lauderdale farmers who, for their own use, could not use a truck load of the animals. By pooling the orders, the Agriculture Committee will assist these farmers in obtaining one or more calves at truck load prices. This first load will consist of 9 Guernseys, 39 Holsteins, and 4 Brown Swiss calves, all of which will be around 12 weeks old. This is the Committee's way of cooperating with the small farmer who wishes to increase his dairying herd.

INVEST IN A GOOD BOAR FOR BETTER PRODUCTION

Commercial swine producers cannot afford to take chances on boars. Since it is often said that the boar represents half of the swine herd, you can't be too skimpy in purchasing one. According to API Extension Hog Marketing Special-

ist Ray Cavender, purchasing a boar incapable of siring large thrifty litters that gain efficiently may turn out to be a poor investment. "Performance records take much of the risk out of selecting replacement breeding stock," says Cavender. And with lower pork prices, efficiency of production and quality of the market hog are extremely important factors.
